# CHAIRMAN'S STATEMENT

Dear Shareholders,

I am pleased to report that following the initiatives we put in place to turnaround our trading performance, the Group has delivered another improved financial result this year. In line with market expectations, we have reported an underlying operating loss\* for the year of £(0.8)m compared to a loss of £(4.4)m in 2014 and a loss of £(7.2)m in 2013 and have made another step towards returning French Connection to profitability.

This improved performance was driven by a number of factors, notably encouraging performances in both wholesale and licensing, coupled with the exiting of non-contributing retail stores and tight cost controls across the business. This performance was delivered against the backdrop of what has been a difficult year for the high street generally.

## Retail

After a good first half, I was disappointed with the second half UK/Europe retail performance. In Q3 and into November, we were trading against stronger prior year comparatives and un-seasonally warm weather. In Q4 we went into the winter sale period with lower stock levels which impacted LFL sales more than expected. Overall UK/Europe LFL retail gross sales were -3% over the full year.

We saw slight margin progression from lower mark down activity on revenue that reduced by 12.1% to £103.3m (-11% at constant currency). This reduction was primarily the result of the closure of a further 9 non-contributing stores in line with our plan to rationalise our retail store estate which will continue this year, with 3-4 store closures expected. The average lease length of the UK/Europe retail estate is 4.4 years (2014: 4.9 years). Adjusting for currency and store closures, underlying retail selling and distribution expenses were broadly flat.

We opened a store in Berlin during the second half, with sales exceeding expectations. Our Amsterdam franchise store was taken over, delivering improved performance since converting to owned and operated. The year saw 2 new El Corte Inglés concessions open with plans for further openings in the year.

Ecommerce represented 23% of retail revenue with 24% of orders serviced through Click and Collect, and mobile and tablet sales making up 47% of ecommerce revenue.

Despite the difficult trading conditions in the second half of this year, which caused a decline in like-for-like sales, we ended the year with a reduced stock position against the prior year.

## Wholesale

We saw a strong performance in Wholesale, with 4.6% growth in revenue (+7.3% at constant currency) and an improvement of 25% in Operating Profit attributable to this division. The revenue growth was achieved across UK/Europe, Rest of World and notably North America which returned to growth in 2015. Gross margins were broadly flat with strong cost control notably in trade-show and promotional expenses.

I am pleased to report the signing of a new country licensee in Mexico which will generate income in the second half of the year. Wholesale orders for Spring 15 show an improvement in year-on-year ordering levels.

## Licensing

Licence income of £6.5m was generated during the period, an improvement of 6.6% (+7.4% at constant currency). Newer licensees performed strongly. The shoe licence saw the successful launch during the year of the first standalone store in Nanjing, with 8 locations now open in China. The furniture licence with DFS benefited from the successful launch of new lines, with further launches planned during the year. Within the retail segment, in 2015, homeware delivered over £1m in sales in the first year of operations. Taken together with the furniture licence income, I am pleased to see a new product category emerging for the Group.

After adjusting for currency and store closures, underlying operating expense savings were 3% compared to prior year. We will continue to focus on cost control.

The Group remains debt free and ended the year with a strong cash position of £23.2m (2014: £28.2m). To conserve working capital the Board has decided that no dividend shall be paid for the year (2014: £Nil). The shareholder distribution policy will be kept under close review during the year.

Although we are encouraged by forward orders in our Wholesale business, as in the second half of the year, trading on the high street remains challenging and we are planning accordingly.

It's been a tough year but I am pleased to say that we have responded accordingly, and I would like to take this opportunity to recognise the hard work of our talented staff across the Group.

# OUR BUSINESS

## Business objectives, strategy, and business model

At the heart of our business is a passion for the clothes. In 1972, when French Connection was conceived, we set out to create well-designed, stylish clothing that appealed to a broad market. We have since worked hard to build on that vision and as a result, French Connection is synonymous with fashion and style.

It remains our prime goal to create distinctiveness in a crowded market place through focus on design. The brand's strength lies in balancing new, exciting ideas with consistent quality and affordability and in a world of "fast fashion" we are proud of our commitment to the creative process.

With a passionate focus on fashion underpinning the business our aim is to generate increased shareholder value through the sale of fashion products and the extension of our brands into other lucrative markets through licensing. We continually assess markets and relationships for new opportunities to broaden our customer reach.

Founded by Chairman and Chief Executive Stephen Marks, French Connection's long history of success has been based on design quality and innovative fashion, supported by a strong market presence resulting in one of the most highly recognised and respected clothing brands in the UK and across the world. We seek to ensure that products are presented for sale in contemporary surroundings by knowledgeable and friendly staff who are in-tune with our customers. We recognise that our products are the core element of our business and that our ability to produce fashionable clothing to match our customers' expectation has been, and continues to be, the key to our continued success.

We seek to ensure that our resources are deployed effectively and efficiently to support our business. Design and production of the ranges and maintenance of our operating standards are paramount for all our business managers who have broad responsibility for their area of operations.

## Brands

Our principal brand is *French Connection* which accounts for 86% of the Group's revenues.

The *French Connection* brand operates in the fashion-orientated market place offering a fashion-forward range of quality products at affordable prices. Our customers, typically aged 18-35, appreciate that the brand is at the leading edge of high street fashion and offers quality and style in its products. *French Connection* designs, produces and distributes branded fashion clothing, accessories and homeware for men, women, and children to more than 50 countries around the world through its main distribution channels: retail stores, e-commerce, wholesale and licensing.

Our other brands include:

*TOAST*: a range of beautifully crafted ladies' and men's clothing and unique homeware, available on-line, in selected John Lewis stores and through branded high-street stores;

*Great Plains*: a fashion basics range designed in-house and supplied through wholesale to multi-brand retailers and available on-line mainly in the UK; and

*YMC*: a fledgling, edgy, contemporary fashion brand for men and women with two stores in London, a growing wholesale base and available on-line.

Each brand targets a different audience and has achieved high levels of recognition for style and design reflecting the creative passion and skill poured into the design and manufacture of their products.

## Our operations

We design, produce and distribute branded fashion clothing and homeware from our business premises in London, New York, Paris, Dusseldorf, Hong Kong and Toronto. We operate retail stores and concessions in the UK, Europe, US and Canada and also operate ecommerce businesses in each of those territories. Further, we wholesale our products to retailers operating in over 50 countries around the world and have licensed partners operating French Connection stores across Asia, Australia and the Middle East.

Our design teams are based in London and we arrange for the products to be manufactured in specialist third party factories in Europe and Asia supervised by local buying offices. The main countries where manufacturing takes place are China, India and Turkey.

The Group retails garments through a network of stores on high streets and in shopping malls across the UK, Europe and North America and through concessions within leading department stores such as House of Fraser. We also operate ecommerce channels in the UK, Europe and North America.

The product ranges are also offered for sale at wholesale through our showrooms in London, New York, Paris, Dusseldorf and Hong Kong to selected customers operating department stores, multi-brand fashion stores or ecommerce sites around the world.

To further extend retail distribution we have granted franchises and licences to quality retailers allowing them to operate *French Connection* branded retail stores in Europe, the Middle East, Asia and Australia. These customers are supplied through our wholesale channels in the UK and Hong Kong. Our licensees operating stores in Hong Kong and China are 50% Joint Venture businesses operated by our local partners in those territories.

## Brand extensions

Our globally recognised *French Connection* brand has been extended successfully into complementary licensed products including men's and women's toiletries and fragrances, shoes, watches, jewellery, eyewear and furniture. Our Design and Licensing teams work closely with branded partners to develop and enhance product for sale.

## Current trends

The continued growth of multi-channel retailing is a clear focus for French Connection. We will continue to invest in the people and systems to support this growth opportunity to ensure our customers can shop with us however they wish and get the very best multi-channel experience. The success of our click and collect program is an example of this investment.

# OUR BUSINESS

Continued

## Principal risks and uncertainties

Our success depends on our ability to produce ranges of garments which are attractive to potential customers. We seek to achieve this through retention of experienced and skilled designers and merchandisers and by remaining as operationally flexible as possible particularly in relation to our supply chain and up front commitments.

The nature of fashion retail, however, means that it is not always possible to predict customers' reactions to each season's new ranges. Our customers' propensity to spend on clothing is also affected by their personal financial situation and other macro-economic factors which impact the total size of the retail markets in which we operate.

We consider however, that as a small operator at the upper end of the middle market the impact on our business of macro-economic elements is considerably smaller than the impact of the success of our designers in producing attractive products.

Each year the brands produce two main seasonal fashion ranges and the success of each of these is largely dependent on the ability of our designers to reflect attractively the emerging trends in fashion. We utilise a mix of experience and fresh thinking in our design studios under the consistent guidance of the senior management to ensure continuity of the brand attitudes.

We have mitigated and smoothed fluctuations in demand by developing our licensing businesses which provide a more stable and predictable income stream.

The design process and our retail businesses in particular have a significant proportion of fixed costs giving rise to operational gearing and this is exacerbated by upward-only rent reviews. To mitigate cost pressures we are constantly focused on store operating costs efficiency, and have already achieved considerable savings by optimising our rostering timetables in store and actively managing our store estate, and exiting stores where the opportunity is economically available to us.

Our brands and the way they are perceived in their respective markets is very important to us. We are therefore very protective of the brands and work to ensure that they are presented in appropriate ways and that they are not misused. A main driver for brand perception is the products themselves and therefore our reputational risk is closely linked to our sales success.

As a wholesaler we also face the risk of default from our customers and manage this through active relationship management by our dedicated customer accounts team. Our experience of bad debts has been very low over many years due to this close management. We also insure certain overseas debt risk.

The Group maintains a positive net cash balance throughout the year and we are conscious to manage the Group's working capital effectively.

The principal treasury risks to the Group arise from exchange rate fluctuations. The Board has approved policies for managing these risks, which are reviewed on a regular basis, including the use of financial instruments, principally forward foreign exchange contracts.

The most significant exposure to foreign exchange fluctuations relates to purchases made in foreign currencies, principally the Hong Kong Dollar. The Group's policy is to reduce the risk associated with purchases denominated in currencies other than Sterling by using forward fixed rate currency purchase contracts. There has been no change since the year end to the major treasury risks faced by the Group or the Group's approach to the management of these risks.

The Group is dependent on reliable IT systems for managing and controlling its business and for providing efficiency and speed in the supply chain. Our IT function oversees all the systems and has policies and procedures to protect the software, hardware and data and to prevent unauthorised access to the systems.

The Group's approach to the management of risks is further discussed in the Corporate Governance Statement.

## Key Performance Indicators

The Board considers that the key performance indicators for the businesses are:

- UK retail LFL sales growth;
- Sales achieved in the wholesale channels;
- Sales by geography;
- Gross margin %;
- Underlying operating profit/loss;
- Inventory levels.

Each of the above is discussed in more detail in the Financial Review.

# CORPORATE SOCIAL RESPONSIBILITY

The Board recognises that the long term profitability of the business depends, amongst other things, on appropriate protection of the Group's assets, reputation and brand names and is subject to the long-term sustainability of the supply chain.

## Impact on the environment

The use of resources to manufacture and supply our products utilise finite global resources. The source of the raw materials and the manufacture of the finished products is spread globally and provides employment, income and personal security at many different points in the process. We recognise, however, that our products utilise global resources some of which are limited in their nature.

Some of the initiatives we have implemented include:

- In the UK, the business meets its responsibilities under the packaging waste regulations through membership of Valpak;
- Wooden hangers are sourced from sustainable sources and we do not give them away with the products;
- Reduction in packaging materials for finished goods i.e. no plastic banding, no inner cartons;
- Plastic returnable tote bins for shipping to our own UK stores to reduce cardboard;
- Plastic and cardboard waste is collected from our UK stores for recycling;
- At Toast packaging is recyclable, and catalogues are printed on FSC paper with vegetable based inks;
- In our US operations, corrugated cartons are re-used whenever possible and ultimately recycled using a band machine so they are crushed into bails for collection; and
- In Canada we are participants in 'Stewardship Ontario', paying a fee for all point of sale materials to be recycled. All lighting has been replaced with LED's.

This is our second year greenhouse gas (GHG) emissions report in line with UK mandatory reporting requirements, set out by the Department for Environment, Food and Rural Affairs (DEFRA).

The mandatory requirement is for the disclosure of scope 1 and 2 emissions only. We have captured all material qualifying emissions from around the Group. Some extrapolation and estimation techniques have been used to calculate the Group CO<sub>2</sub>e in respect of less than 5% of our stores and the final month of our data.

The reported sources fall within our consolidated financial statements. We do not have responsibility for any emission sources that are not included in our consolidated financial statements. We have computed our emissions using the DEFRA Environmental Reporting Guidelines: Including mandatory greenhouse gas emissions reporting guidance issued in June 2013.

Our total GHG footprint in line with these guidelines 4,924 tonnes CO<sub>2</sub>e (2014: 5,567 tonnes).

## Supply chain

The Group has used third party manufacturing facilities around the world for over thirty years but has specifically avoided suppliers or regions where the employment or environmental practices are known to be below acceptable standards. The Group requires all of its product suppliers to abide by its guidelines contained in the Supplier Guide. Our staff visit the factories we use for garment production on a regular basis and consider the environment and work practices during those visits, however currently our ability to formally audit the facilities is limited. Our Supplier Guide and the employment standards required of our suppliers accord with industry standards including *inter alia* that employees should: be given a safe and healthy environment to work in; be given the right to free

association; be paid a fair wage; not be forced or bonded labour; be of an appropriate age; and work only reasonable hours.

The Board recognises that it is not possible to provide absolute assurance that standards expected of our suppliers are adhered to. Where transgressions are identified we would work with the supplier to develop an appropriate remediation programme. However we will not hesitate to stop using any supplier who we identify is persistently operating in contravention of our standards or failing to implement agreed remediation programmes.

In October 2014 French Connection ended the use of angora in the production of its clothing and accessories following customer feedback.

Toast supports the non-use of animals in testing and challenge our suppliers on this matter – our glycerine soaps as an example, do not contain any animal derived ingredients and are suitable for use by vegetarian and vegans.

## Tax

The Board is committed to ensuring full compliance with the law and making all tax payments on a timely basis.

The Board are committed to ensuring that openness, honesty and transparency will be paramount in all dealings with the tax authorities and other relevant bodies.

We run cycle to work and childcare voucher schemes in the UK for our employees.

## People

We are committed to providing equal opportunities for all of our employees.

We ensure that every employee, without exception, is treated equally and fairly and that all employees are aware of their responsibilities.

The breakdown of the gender of Directors and employees at the end of the financial year is as follows:

	Men Number 2015	Women Number 2015
Company Directors	4	1
Other senior managers	7	7
All other employees	500	1,583
Total	511	1,591

## Notes

Company Directors consist of the Company's Board.

Other senior managers is as defined in The Companies Act 2006 (Strategic Report and Directors' Report) Regulations 2013, and includes: i) persons responsible for planning, directing or controlling the activities of the Company, or a strategically significant part of the Company, other than Company Directors; and ii) any other Directors of undertakings included in the consolidated accounts.

The business complies with locally applicable health and safety regulations in the countries in which it operates. This includes the provision and maintenance of safe environments for our employees, appropriate design of our stores, health and safety training for appropriate personnel, electrical installation reviews, risk assessments and risk monitoring in our offices, stores and warehouses.

# FINANCIAL REVIEW

## Financial results overview

Following the initiatives put in place two years ago to turnaround trading performance, the Group has delivered a second consecutive year of strengthened financial performance. Each half year reported during this period has shown year on year financial improvement.

For the full year ended 31 January 2015 underlying Group operating loss was reduced to £(0.8)m (2014: loss of £(4.4)m, 2013: loss of £(7.2)m). After taking into account the cost of store disposals and closures the total loss before tax was £(1.6)m (2014: loss of £(6.1)m).

## Revenue overview

Total 2015 revenue was 5.8% lower than 2014 (-4.1% at constant currency) with the growth in wholesale being offset by the impact of store closures and LFL's in Retail.

## Gross margin

Composite gross margin was slightly reduced at 46.7% (2014: 47.6%) reflecting the higher mix of wholesale sales within Group revenue. Within this UK/Europe retail gross margin was up 50 basis points on lower discounting, and UK/Europe wholesale gross margin up 170 basis points.

# FINANCIAL REVIEW

Continued

## Retail

Group retail revenues of £103.3m were 12.1% lower than the prior year (-11% at constant currency). The decline in revenue was primarily due to the closure of 9 UK/Europe non-contributing stores and negative LFL's in H2.

In Q3 and into November, UK/Europe retail had been trading against stronger prior year comparatives and un-seasonally warm weather impacting LFL sales, as reported at the November IMS. In Q4 we traded through the sale period with lower stock levels which impacted LFL sales. Overall UK/Europe LFL retail gross sales for the full year were -3% (H1 +1.1%, H2 -6.5%).

The retail gross margin of 57.2% (2014: 56.9%) reflected a good performance in UK/Europe with an improvement in margin of 50 basis points partly offset by higher discounting to clear inventory in North America.

The retail underlying loss of £(11.3)m was an improvement of £0.3m compared to prior year. This improvement was driven out of UK/Europe through the closure of non-contributing stores.

Ecommerce sales represent 23% of total Group retail sales (2014: 20%).

## Wholesale

Group wholesale revenues of £75.2m were 4.6% higher than prior year (+7.3% at constant currency), with growth in both UK/Europe, North America and Rest of World. The wholesale gross margin of 32.3% was broadly flat reflecting a good performance in UK/Europe with an improvement in margin of 170 basis points offset by higher discounting to clear inventory in North America. Combined with tight cost control, particularly trade show and promotional expenses, overall wholesale underlying operating performance was a £14.6m profit, an increase of £2.9m.

## Geographical analysis

The geographical revenue break-down is largely unchanged with UK/Europe representing 72% of Group revenues (2014: 71%). The combination of Retail and Wholesale in UK/Europe led to an improvement of £3.5m in divisional operating contribution with North America delivering an improvement off the back of a recovery in wholesale. Rest of the World wholesale revenues were +2.1% at constant currency and the lower profit from JV's was due to the timing of Chinese New Year and the disruption to retail in Hong Kong during the widely publicised demonstrations.

## Other Income

The net income received from Global licensing was £6.5m in the year (2014: £6.1m) with strong growth from furniture and shoes.

## Operating expenses

Total Group operating expenses of £90.8m were 10.5% lower than last year. After adjusting for store closures and currency, operating expenses were 3% lower than last year thanks to close monitoring and control. We will continue the focus on costs, and will seek to absorb cost pressure from rent reviews due in the current year.

## Balance sheet and cash flow

The Group balance sheet at 31 January 2015 remains strong with £23.2m of cash (2014: £28.2m), no bank borrowings and a minimum cash position during the year of £7.6m (2014: £9.9m).

The trading operations of the Group consumed cash of £3.0m (2014: cash generated £1.6m) with a reduction in trade and other payables due largely to the timing of Chinese New Year, lower stock purchases, and smaller retail store estate. This was compensated for in part by a further decrease in inventory of £3.3m reflecting the continued improvements in the efficiency of merchandising and buying.

Capital expenditure increased to £1.1m (2014: £0.8m) with increased expenditure on new retail locations, website platform investment, and warehouse capabilities. In the year the restructuring costs of closing under-performing stores was £1.4m. We continue to target the closure of non-contributing stores and expect 3–4 more to close in the current year in UK/Europe and we will also review closely our North America store portfolio. Since certain of the non-performing stores are coming to the end of their leases, we expect to spend less in store closure costs going forwards.

## Taxation

The tax charge for the year of £Nil (2014: tax credit of £0.1m) represents the net impact of a reduction in the tax potentially payable on deferred capital gains less the tax payable on current profits generated in Hong Kong and the US (as reduced by past losses). The Group has unused tax trading losses with a potential value of £13.8m. As the Group returns to profit, these tax losses should be utilised.

## Dividends

The Board of Directors remain of the view that the business is best served by retaining current cash reserves to support the turnaround of the business, and therefore do not recommend the payment of a dividend. The Board intend to keep the shareholder distribution policy under close review during the year.

## Going concern

Having reviewed the cash forecasts and the sources of cash funding available to the Group, the Board has concluded that it is appropriate to prepare the Group financial statements on a going concern basis.

The strategic report, from pages 2 to 10, has been reviewed and approved by the Board on 17 March 2015.

Since leaving Morgan Stanley, Claire has focused on advising companies on their IPOs (Prada in 2011; Pandora in 2010) and playing a role in the sale of private equity-owned companies (Cath Kidston, Original Additions). She is also an advisory Director of Investcorp, a consultant for Prada and a Board member of Georg Jensen. Claire is a co-founder of the British crafted runwear brand, Iffley Road.</p>

# DIRECTORS' REPORT

The Directors of French Connection Group PLC ("the Company") present their Annual Report for the year ended 31 January 2015.

## Principal activity

The Group designs and supplies branded fashion clothing and accessories as more fully described in the section entitled Our Business.

## Business review

The principal operating subsidiaries of the Group for the period under review were French Connection Limited, French Connection UK Limited, French Connection (London) Limited, Contracts Limited, French Connection Group Inc, French Connection (Hong Kong) Limited, Toast (Mail Order) Limited, French Connection (Canada) Limited and YMC Limited.

The Companies Act requires that the Directors' Report contains a fair review of the business and a description of the principal risks and uncertainties facing the Group. A review of the business strategy and a commentary on the performance of the business is set out in the Strategic Report. The principal risks facing the business are detailed in the section entitled Our Business and the corporate and social responsibilities of the Group are outlined in the Corporate Social Responsibility Statement. The Corporate Governance Statement may be found on page 14. The disclosures contained in those reports form part of this Directors' Report.

## Fair, balanced and understandable

The Board has considered the regulatory changes impacting corporate reporting and Executive remuneration and believes this Annual report and Accounts complies with these changes taking into account emerging best practice. Notably the Board has determined that the 2015 Annual Report and Accounts, taken as a whole is fair, balanced and understandable. It provides the information necessary for shareholders to assess the performance, strategy and operating model of the Group and Company in accordance with the Code requirements.

## Dividend

The Directors are recommending that no dividend should be paid for the year.

## Directors

The Directors of the Company are set out in the Board of Directors on page 11.

Stephen Marks and Dean Murray, Directors, retire by rotation in accordance with the Articles of Association and offer themselves for re-election at the AGM. The Board considers that Mr Marks and Mr Murray continue to make a major contribution to the strategy and operations of the Group and therefore recommend their re-election as Directors. Details of Mr Marks' and Mr Murray's remuneration and contracts are set out in the Directors' Remuneration Report.

The Board has considered whether there are any factors which might compromise the independent judgement of either of the non-Executive Directors and concluded there was none. The Board therefore considers both Mr Murray and Ms Kent to be independent of the Company.

At 31 January 2015, none of the Directors or their families held any beneficial interests in the issued capital of the Company other than Stephen Marks whose shareholding is disclosed

below and Adam Castleton whose shareholding is disclosed in the Directors' Remuneration Report.

The details of share options held by Directors are set out in the Directors' Remuneration Report. There have been no changes in the Directors' interests in the shares of the Company since the end of the financial year.

## Significant shareholdings

As at 17 March 2015 the Company is aware of the following substantial interests in its ordinary shares:

	Shares	Percentage of Issued Share Capital
Stephen Marks	40,094,190	41.7%
of which:		
– held in family trusts	1,506,500	
– held by family members	775,000	
Schroder Investment Management	12,111,207	12.6%
OTK Holding	6,000,000	6.2%
Liad Meidar	4,837,000	5.0%

## Contractual arrangements

The Company has no contractual or other arrangements which are essential to the business of the Company nor any key customers or major suppliers on which it is dependent.

## Supplier payment

The majority of the Group's creditors are suppliers with whom payment terms and conditions are agreed in advance. Where the supply of goods and services is satisfactory, it is the policy of the Group to pay creditors when they fall due for payment.

For the year ended 31 January 2015, the Group's average trade creditors represented 34 days purchases (2014: 33 days). The Company has minimal third party creditors.

## Employees

It is the Group's established practice that all employees have access to their immediate superiors and ultimately to the Chief Executive to discuss matters of concern to them as employees and that the views of employees are sought and taken into account in making decisions which are likely to affect their interests.

Furthermore the Group seeks to encourage both the involvement of employees in its performance and a common awareness on the part of all employees of factors affecting its performance. The Group provides equal opportunities to all employees and prospective employees including those who are disabled.

## Carbon emissions

The Group has disclosed carbon emissions data within the Corporate Social Responsibility Report.

## Property, plant and equipment

The changes in intangible and tangible fixed assets during the year are set out in Notes 11 and 12 to the Group accounts.

## Financial instruments

The financial instrument policies are set out in Note 26 to the Group accounts.

## Joint Ventures

The Group is a member of two 50:50 Joint Ventures operating retail stores in China and Hong Kong. Both joint ventures are managed by committees with equal representation from the members. The Group's share of the results of these businesses is included in these accounts for the whole of the financial year.

## Charitable and political donations

Charitable donations of £11,305 (2014: £14,051) were made during the year. No political donations were made in either 2015 or 2014.

## Share capital and control

The share capital of the Company comprises ordinary shares of 1p each; each share carries the right to one vote at general meetings of the Company. The issued share capital of the Company, together with movements in the Company's issued share capital during the year, are shown in Note 21.

The rights and obligations attached to the Company's shares, in addition to those conferred on their holders by law, are set out in the Articles of Association. The holders of ordinary shares are entitled to receive all shareholder documents, attend and speak at general meetings of the Company, exercise all voting rights and to receive dividends and participate in other distributions of assets.

The Company is not aware of any agreements between shareholders restricting the voting rights or the right to transfer shares in the Company.

The rules about the appointment and replacement of Directors are contained in the Company's Articles of Association. Changes to the Articles of Association must be approved by the shareholders in accordance with the legislation in force from time to time. The powers of the Directors are determined by legislation and the Articles of Association of the Company in force from time to time. Powers relating to the issuing and buying back of shares are included in the Company's Articles of Association and shareholder approval of such authorities may be sought, if considered appropriate by Directors, at the Annual General Meeting.

The Company does not have agreements with any Director or employee that would provide compensation for loss of office or employment resulting from a takeover, save that the Company's share schemes contain provisions which may cause options and awards granted to employees to vest on a takeover.

## Takeovers directive

Section 992 of the Companies Act 2006, which implements the EU Takeovers Directive, requires the Company to disclose certain information. Most of these requirements are dealt with elsewhere in the Annual Report, however the following additional disclosures are required:

The Company's Articles of Association may be amended by special resolution of the shareholders.

The Board of Directors is responsible for the management of the business of the Company and may exercise all the powers of the Company subject to the provisions of the relevant statutes, the Company's Memorandum and Articles of Association. The Articles contain specific provisions and restrictions regarding the Company's power to borrow money. Powers relating to the issuing of shares are also included in the

Articles and such authorities are renewed by shareholders each year at the AGM.

There are a small number of agreements that take effect, alter or terminate upon a change of control of the Group following a takeover, such as shareholder agreements with the minority shareholders in certain subsidiaries and the Company share option schemes. None of these is deemed to be significant in terms of their potential impact on the business of the Group as a whole.

## Going concern

The Group has considerable cash resources, ending the year with £23.2m (2014: £28.2m) and with a minimum Group cash balance during the year of £7.6m (2014: £9.9m). The Group has no debt.

Having reviewed the cash forecasts and the sources of cash funding available to the Group, the Board has concluded that the Group has a reasonable expectation to continue in operational existence for the foreseeable future. For this reason, the Board continues to adopt the going concern basis in preparing the accounts.

## Controlling shareholder

In order to comply with changes to the Listing Rules relating to controlling shareholders, a relationship agreement was executed during the year between French Connection Group PLC and Stephen Marks. The Company has complied with all of the independence provisions of the Listing Rules.

## Disclosure of information to auditors

The Directors who were members of the Board on the date the Directors' Report was approved have confirmed the following:

- to the best of each Director's knowledge and belief there is no information relevant to their report of which the auditor is unaware; and
- each Director has taken all the steps a Director might reasonably be expected to take to be aware of relevant audit information and to establish that it has been communicated to the auditor.

## Auditors

KPMG LLP were appointed at the last AGM and have indicated their willingness to continue as Auditors. Resolutions to reappoint them and to authorise the Directors to determine their remuneration will be proposed at the 2015 AGM.

## AGM

The AGM of the Company will be held at 10.00 am on 14 May 2015 and a Notice of Meeting has been sent to shareholders setting out details of the business to be conducted.

Explanatory notes on all the business to be considered at this year's AGM appear on pages 60 to 61 of this document.

# CORPORATE GOVERNANCE STATEMENT

## Compliance with the UK Corporate Governance Code

The Board is responsible for ensuring compliance with the new edition of UK Corporate Governance Code (the 'Code'), which was published by the Financial Reporting Council in September 2012 and applies to reporting periods beginning before 1 October 2014. The code is available at [www.frc.org.uk](http://www.frc.org.uk).

Except as referred to below, the Company has complied with all relevant provisions of the 2012 Code throughout the year ended 31 January 2015 and from that date up to the date of publication of this Annual Report.

Mr Marks is both Chairman and Chief Executive and is also the founder and the major shareholder (provision A2.1). The culture of the business, led by the Chief Executive, is one of detailed involvement and a need for speedy reaction times. Mr Marks has led this culture and defined the character of the business throughout its existence.

Constructive challenge by the independent non-Executive Directors, as well as the effective functioning of the committees ensures that authority is suitably balanced.

The Board contains two non-Executive Directors, each of which chairs one of the three committees of the Board and therefore has specific responsibilities. The Board has concluded that there would be no benefit in nominating a senior non-Executive Director (provision A4.1). Both are utilised as sounding boards for the Chairman and both are available to other Executive Directors or shareholders as necessary.

There were no non-Executive Board appointments made or contemplated during the year. It is our intention to form a Nominations Committee comprising the two non-Executive Directors when any appointment is contemplated (provision B2.1).

The Chairman believes that the Board and its Committees functioned well during the year and supported the strategy and development of the Company. A detailed and formal evaluation was therefore not carried out during the year (provision B6.1).

## The Board and its composition

The Board reserves to itself certain key matters to approve or monitor on behalf of the shareholders the strategic direction, development and control of the Group. It approves strategic plans and annual capital and revenue budgets. It reviews significant investment proposals and the performance of past investments and maintains an overview and control of the Group's operating and financial performance. It monitors the Group's overall system of internal controls, governance and compliance and ensures that the necessary financial and human resources are in place for the Company to meet its objectives.

The Board delegates responsibility for the day-to-day operation of the business to the Executive Directors within the framework of agreed prudent and effective controls.

The Company Secretary's responsibilities include ensuring good information flows to the Board and between senior management and the non-Executive Directors. The appointment and removal of the Company Secretary is a matter reserved for the Board. The Company Secretary is responsible, through the Chairman,

for advising the Board on all corporate governance matters and for assisting the Directors with their professional development.

All Directors are briefed by the use of comprehensive papers circulated in advance of Board meetings and by presentations at the meetings in addition to receiving minutes of previous meetings.

The training needs of Directors are formally considered on an annual basis and are also monitored throughout the year with appropriate training being provided if required.

Any member of the Board may take independent professional advice at the Company's expense. All Directors have access to the advice and services of the Company Secretary. All Directors of the Company are covered by a comprehensive Directors and Officers insurance policy.

The Company's Articles of Association give power to the Board to appoint Directors, but require Directors to submit themselves for election at the first AGM following their appointment. One third of the Board is subject to re-election annually.

The Board of Directors at the date of this report comprises three Executive Directors and two independent non-Executive Directors. The biographical details of each Board member are set out in the Board of Directors, including their main commitments outside the Company.

During FY 2015 there were nine scheduled Board meetings. Neil Williams was unable to attend two of the meetings. All the other meetings were fully attended.

The non-Executive Directors are considered to be independent in that they remain free from any business or other relationship which could materially influence their judgement and represent a strong source of advice and independent challenge.

Stephen Marks and Dean Murray are required to stand for annual re-election in accordance with B.71 of the Code and the Company's Articles of Association.

## Committees

Each Board Committee has written terms of reference approved by the Board, which are available on the Company's website.

### Audit Committee

The Audit Committee comprises Dean Murray who is Chair and Claire Kent, the two independent non-Executive Directors.

The Committee met three times during the year and each meeting was fully attended.

Details of the Audit Committee are included in the Audit Committee Report.

### Remuneration Committee

The Remuneration Committee comprises Claire Kent who is Chair and Dean Murray. The Group Finance Director attends by invitation.

The Committee met three times during the year and each meeting was fully attended.

Details of the Remuneration Committee are included in the Directors' Remuneration Report.

### **The Disclosure Committee**

The Disclosure Committee was established in October 2013 to assist and inform the Chief Executive in his decisions concerning the identification of inside information and its disclosure. The Disclosure Committee comprises the Chief Executive, Group Finance Director and Chief Operating Officer.

The Disclosure Committee met once during the year and was fully attended.

### **Code of ethics**

The Group operates under the detailed and entrepreneurial guidance of Stephen Marks (the founder of the business), the Executive Directors and a broad range of operational managers. As noted above the Board includes two non-Executive Directors who provide independent challenge and input into the overall governance of the Group.

The culture established by Mr Marks and the senior management is to expect a high standard of behaviour from everybody working for the Company.

The Board has considered the risks associated with the issues raised by the Bribery Act 2010 as part of the broader review of risks faced by the Group and has reviewed the processes and controls in place to prevent offences under the Act.

The Company also offers a confidential, whistle blowing hotline for any employee wishing to report any concern that they feel is inappropriate to raise with their line manager. All whistle blowing allegations are reported to and considered by the Executive Committee and Board. No instances occurred during the financial year.

### **Tax**

Board level oversight of tax matters is part of the Company's tax risk governance process.

All significant tax matters are reported to the Board by the Group Finance Director and tax matters are governed by the Group tax strategy.

### **Internal control and risk management**

The Board supported by the Audit Committee confirms that there are ongoing procedures in place for identifying, evaluating and managing significant risks faced by the Group and that these have been in place for the year under review and up to the date of approval of the Annual Report and Accounts. The procedures have been reviewed on an ongoing basis throughout the year by the Audit Committee and accord with the requirements of the UK Corporate Governance Code.

The Board conducts an annual review of the major risks affecting the business and the effectiveness of the system of internal control. The culture of the business results in the Executive Directors being closely involved in managing the business at a detailed level. This provides a high degree of direct monitoring of risks and control processes, conducted against the background of a culture of integrity, quality and high levels of communication. This is supported by reviews of daily, weekly and monthly detailed analyses of the performance of the business, the key performance indicators associated with the trading risks facing the Company and the detailed operational results.

The Group does not have a separate internal audit function although during the year the Board considered whether there is a need for such a function, concluding that the benefits, when compared to the potential benefits of deploying additional resources in other areas, are not sufficiently clear. Certain elements of internal audit work are conducted or coordinated by the existing finance and accounting functions. These include reviews of financial controls internationally, externally facilitated reviews of procurement transactions and support for system developments between the separate accounting functions.

### **Communication with shareholders**

Communication with shareholders is generally conducted through one-to-one meetings with the Executive Directors (and the non-Executive Directors if requested) for which there is an open invitation to all shareholders and proactive invitation made to shareholders with more than 1% of the share capital.

Meetings typically occur shortly after the announcements of half-year and full year results. The opinions expressed by shareholders are gathered by the Company Broker and passed directly to the Board.

The AGM and the resolutions proposed for consideration at the meeting are another focus of communication with shareholders. Discussions are held prior to the meeting with shareholders where they have views on the resolutions. The level of proxy votes received is considered carefully by the Board and published on the Group's website with details of any proposed Board action where significant votes were cast against a specific resolution.

# AUDIT COMMITTEE REPORT

## Introduction from the Audit Committee Chair

I am pleased to present the Audit Committee Report for the year ended 31 January 2015.

The Audit Committee is responsible for ensuring that the financial integrity of the Group is effective, through the regular review of its financial performance. It is also responsible for ensuring that the Group has appropriate risk management processes and internal controls, and that the external audit process is robust. I explain in more detail the Committee's activities in this report.

The Audit Committee provides effective governance over external financial reporting, risk management and internal controls and reports its findings and recommendations to the Board. In my capacity as Chairman of the Audit Committee, I am pleased to report on the operations of the Committee during the past year, with emphasis on the specific matters we have considered, including compliance with the UK Corporate Governance (the Code) and associated Guidance on Audit Committees. I confirm that we have fully complied with the requirements of the Code.

Robert Brent completed his final year of the Audit Partner's five year rotation. I would like to formally welcome Jeremy Hall as our new Audit Partner.

I thank my fellow Committee member Claire Kent for her work and input to the Committee and have welcomed the openness of KPMG and French Connection personnel throughout the year.

## Dean Murray

Chair of the Audit Committee

## Membership and remit of the Audit Committee

The Committee considers financial reporting and reviews the Group's accounting policies and annual statements. In particular, any major accounting issues of a subjective nature are discussed by the Committee.

The Committee also reviews audit activity including the recommendation to the Board regarding the appointment of the external auditor, their remuneration and scope of work, including non-audit services.

The Audit Committee is also responsible for considering the independence, objectivity and effectiveness of the external auditor, for monitoring the level of non-audit services provided by the external auditor and for assessing the effectiveness of the risk management process.

At the date of the 2015 Annual Report, the Audit Committee comprises two independent non-Executive Directors: Dean Murray (Chair) and Claire Kent. In accordance with Code provision C.3.1, the Board considers that Dean Murray has significant, recent and relevant financial experience. Biographies of all of the members of the Audit Committee, including a summary of their experience, appear within the Board of Directors.

The Audit Committee normally meets at least three times a year. Audit Committee meetings are also attended by the Group Finance Director, who is Secretary to the Committee and by invitation members of the Group Finance team and Partner and other senior staff of the external auditor. The Committee met three times during the financial year and each meeting was fully attended.

## Terms of reference

Significant risk issues identified are referred to the Board for further consideration. The terms of reference of the Audit Committee are available on the Company's website.

The Audit Committee is authorised by the Board to review any activity within the business. It is authorised to seek any information it requires from, and require the attendance at any of its meetings of, any Director or member of management, and all employees are expected to co-operate with any request made by the Audit Committee.

The Audit Committee is authorised by the Board to obtain, at the Company's expense, outside legal or other independent professional advice and secure the attendance of outsiders with relevant experience and expertise if it considers this necessary.

The Chair of the Audit Committee reports to the subsequent Board meeting on the Committee's work and the Board receives a copy of the minutes of each meeting.

## Significant issues considered by the Audit and Risk Committee

The Committee considered the significant accounting issues, matters and judgements in relation to the Group's financial statements and disclosures for the year ended 31 January 2015. As part of the half-year and full year reporting process, management present a Financial Review to the Committee, and the external auditors are asked to also comment on the key areas of accounting judgement and disclosure. The information presented is used by the Committee to critically review and

assess the key policies and judgements that have been applied, the consistency of policy application from year to year and the appropriateness of key disclosures made, together with compliance with the applicable accounting standards.

After discussion with both management and the external auditor, the Committee determined that the key risks of misstatement of the Group's financial statements related to:

### **Net realisable value of inventories (NRV)**

Net realisable value was discussed with management during the year and with the auditor at the time the Committee reviewed and agreed the auditors' Group audit plan, and also at the conclusion of the audit of the financial statements.

The Audit Committee required the Head of Business Planning and the Stock Controller to present a detailed summary of inventory and to describe the methodology for calculating the inventory provision which was considered in detail by the Committee. They were also required to describe the stock taking procedures.

The Committee interrogated management's key assumptions made regarding net realisable value and was satisfied that the significant assumptions had been appropriately scrutinised, challenged and were sufficiently robust.

The auditor explained their audit procedures to test management's assumptions and calculations and considered the Group's disclosures on the subject. On the basis of their audit work, the auditor considered that the carrying value of inventory was materially appropriate in the context of the financial statements as a whole.

### **Risk management framework**

The risk management framework is considered by the Board during the year, and was discussed on an ongoing basis in the Audit Committee.

The Audit Committee also considered a report presented by the Head of IT which set out in detail for all business systems the IT risk register, risk ranking, risk mitigation and investment plans. The Audit Committee supported the approach taken by management to identify and mitigate IT risks.

The Group did not have a separate internal audit function during the year. The Audit Committee considered whether there was a need for such a function, concluding that the benefits, when compared to the potential benefits of deploying additional resources in other areas, were not sufficiently clear.

### **Confidential reporting**

The Group's whistle blowing policy enables staff, in confidence, to raise concerns about possible improprieties in financial and other matters and to do so without fear of reprisal.

The Audit Committee receives quarterly reports on whistle blowing incidents and remains satisfied that the procedures in place are satisfactory to enable independent investigation and follow up action of all matters reported.

No issues have been reported in the current year.

### **Other matters considered**

Changes to the UK Corporate Governance Code were considered by the Committee.

The Audit Committee strategy and timetable was considered and agreed.

### **Reporting of other matters**

All significant insurance claims and incidents of fraud or theft are reported to the Committee.

There have been no significant incidents during the year.

### **External auditor appointment**

KPMG LLP were appointed as auditors at the AGM on 15 May 2014 and the Directors were authorised to agree their remuneration for the 2014/2015 audit.

The Audit Committee has considered the new Code, and recognises the Competition Commission's proposal that FTSE350 Companies must tender the external audit at least every ten years. While this is not applicable to French Connection, the Committee nevertheless recognises this to be best practice. The Committee is also aware of the EU proposals that have come into force during 2014 and that will be relevant for all listed companies from 2016.

The Audit Committee understands that local enactment of the law is still being finalised and will continue to monitor these developments during the coming year. The Committee is aware that KPMG LLP's last possible year of engagement is currently 2021 and will therefore develop an appropriate *Audit tendering policy* when applicable.

### **External auditor's independence**

The Committee has adopted a policy in relation to the appointment of the external auditors to conduct non-audit services for the Group.

The policy identifies three categories of work: that which is closely related to the statutory audit work, such as tax planning and compliance, and which is therefore pre-approved by the committee, that which it is inappropriate for the auditors to conduct, such as internal accounting work, IT services, or internal auditing, and from which the auditors are therefore excluded and all other types of work for which prior approval is required from the Audit Committee where the costs are greater than £5,000.

The objective of this policy is to protect the independence of the auditors while retaining the benefits to be gained from synergies with existing work areas.

In 2014/2015 the ratio of audit to non-audit fees was 1:0.47.

The Audit Committee has considered the independence of the external auditor, including the non-audit services performed, and has concluded that those non-audit services provided do not impair the auditor's independence.

### **External audit annual assessment**

The Group Finance Director, and the Audit Committee meet with the external auditors to discuss the audit strategy and any key issues included on the Audit Committee's agenda during the year.

After formal discussion, the Audit Committee considers that the relationship with the auditors is working well and is satisfied with their effectiveness.

# DIRECTORS' REMUNERATION REPORT

## Annual Statement by the Chairman of the Remuneration Committee

On behalf of the Board, I am pleased to present the Directors' Remuneration Report for the year ended 31 January 2015. In my report as Chairman of the Remuneration Committee, I set out the Committee's approach to Directors' remuneration. The Committee's objective is to set a remuneration policy that is clearly understood by our shareholders and employees, and that drives the right behaviour in terms of incentivising Executive Directors to deliver growing long-term shareholder value.

There were no substantial changes relating to Directors' remuneration made during the year.

Following the approval of the Directors' Remuneration Policy at the last AGM we are seeking shareholders' approval of the Directors' Remuneration Report, as set out in the next section of this report, at the 2015 AGM.

We are happy to discuss any remuneration matters with shareholders and hope that we can enjoy your support on the remuneration-related resolutions at the 2015 AGM.

### Claire Kent

Chairman, Remuneration Committee

## Directors' Remuneration Report

The Directors' Remuneration Report sets out details of the remuneration policy (Section 1) for Executive and non-Executive Directors, describes the implementation of that policy (Section 2) and discloses the amounts paid relating to the year ended 31 January 2015.

The report complies with the provisions of the Companies Act 2006 and Schedule 8 of The Large and Medium-sized companies and Groups (Accounts and Reports) (Amendment) Regulations 2013. The report has been prepared in line with the recommendations of the UK Corporate Governance Code and the requirements of the UKLA Listing Rules, as well as the GC100 and Investor Group.

The Remuneration Committee comprises Claire Kent as Chair and Dean Murray. Adam Castleton acts as Secretary to the Committee. The Committee met three times during the year to consider the Directors' and senior managers' remuneration. All meetings were fully attended.

When setting the policy for Executive Directors' remuneration, the Committee takes into account total remuneration levels operating in companies of a similar size and complexity, the responsibilities of each individual role, individual performance and an individual's experience. Our overall policy, having had due regard to the factors noted, is to weight remuneration towards variable pay. This is typically achieved through setting base pay, pension and benefits up to market median levels, with a variable pay opportunity linked to the achievement of company and personal performance targets.

In setting remuneration for the Executive Directors, the Committee does take note of the overall approach to reward for employees in the Group and salary increases will ordinarily be (in percentage of salary terms) in line with those of the wider workforce.

We remain committed to shareholder dialogue and take an active interest in voting outcomes. There have been no significant policy changes or other substantial matters which required dialogue with shareholders during the year. If any of the shareholders are opposed to our policy we would endeavour to meet with them to understand and respond to any issues they may have.

The Committee considers developments in institutional investors' best practice expectations and the views expressed by shareholders during any dialogue. The Committee does not formally consult directly with employees on Executive pay.

## Terms of reference for the Remuneration Committee

The terms of reference can be found on the Company's website.

### Section 1: Remuneration Policy

The objective of the policy is to ensure it is appropriate to the Group's needs and reward Executives for creating shareholder value. It is the Remuneration Committee's intention to maintain incentive arrangements which are subject to challenging performance targets, reflect the Company's objectives and which motivate executives to focus on both annual and longer term performance.

The Company's policy is:

- to provide remuneration packages for the Executive Directors and other senior managers in the Group which are appropriate to the size and nature of the Group's business and which will attract, retain and motivate high calibre Executives; and
- to balance the fixed and performance-related elements of remuneration appropriately and to provide both short-term and longer-term incentives to achieve the strategic aims of the Group.

### Structure of remuneration

Element	Purpose and link to strategy	Operation (including maximum levels)	Framework used to assess performance and provisions for the recovery of sums paid
Salary and fees	To provide the core reward for the role  Sufficient to attract, retain and motivate high calibre Executives	Basic salaries are reviewed annually, with changes effective from 1 February  Salaries are typically set having regard to competitive market practice, each Director's contribution to the business, general inflation rates and the conditions within the Group  Salaries may be adjusted and any increase will ordinarily be (in percentage of salary terms) in line with those of the wider workforce  Increases beyond those granted to the wider workforce (in percentage of salary terms) may be awarded in certain circumstances such as where there is a change in responsibility, progression in the role, experience or a significant increase in the scale of the role and/or size, value and/or complexity of the Group  Salary levels for current incumbents for the 2015 financial year are as follows: Chairman/CEO: £308,461 Group Finance Director: £215,000 Operations Director: £232,989	The Committee considers individual salaries at the appropriate Committee meeting each year after having due regard to the factors noted in operating the salary policy  No recovery provisions apply to salary
Benefits in kind	In line with the Company's strategy to keep remuneration simple and consistent with practices in the market	Executive Directors receive car benefit, medical cover and life cover in line with other senior management  Executive Directors also receive personal accident and sickness cover  The cost to the Company of providing these benefits may vary from year to year depending on the cost of insuring the benefit	Not applicable  No recovery provisions apply to benefits
Pension	To provide post-retirement remuneration and market typical benefits to ensure that the overall remuneration package is competitive	Defined contribution plan with up to 10% monthly employer contributions  A cash alternative may be considered  For tax and wealth planning, the Company may make payments of pension benefits due in advance for Executive Directors	Not applicable  No recovery provisions apply to pension benefits
Annual Bonus	To incentivise and recognise execution of the business strategy on an annual basis  Rewards the achievement of annual financial, operational and individual goals	Bonuses are capped at 100% of basic salary  Bonus payments are proposed to the Board after the end of each financial year and approved by the Committee for payment in March  The bonus is calculated using pro-rata base salary if the Director joined the Company during the year  If the Director resigns or has his/her employment terminated before the payment date, no bonus will normally be payable	The annual grant of bonuses is based on the financial performance of the Group in relation to initial budgets, prior year performance and market conditions, as well as operational and individual goals  No recovery provisions apply to the Annual Bonus. Any provisions will be considered in 15/16 in line with D1.1 of the Corporate Governance code

Long-term incentive plans (LTIPs)	<p>To align the interests of the Executive Directors with the performance of the business and the interests of the shareholders through the use of share option schemes</p> <p>To incentivise and recognise execution of the business strategy over the longer term</p> <p>Rewards strong financial performance</p>	<p>At the discretion of the Board and approval of the Remuneration Committee the Company may issue share options to Directors up to a maximum of two times salary in each year</p> <p>In exceptional circumstances the Board has the discretion to issue options up to four times salary although this power has not been used in the last ten years</p> <p>Options will normally be granted at market value on the date of grant unless otherwise stated in a Service Agreement</p> <p>Options may be granted at a discount to the market value only in circumstances where the grant of options is agreed as part of a recruitment package in which case the exercise price of the option may be determined by reference to the market value on the date on which the individual's employment commenced</p> <p>The share option schemes include an upper limit on the number of shares which can be issued of 10% of the total share capital in any ten year period</p>	<p>Share Awards vest based on three year performance against a challenging range of financial targets</p> <p>No recovery provisions apply to the LTIP. Any provisions will be considered in 15/16 in line with D1.1 of the Corporate Governance code</p>

The Committee has not been required to apply any discretion during 2015 outside the stated Remuneration Policy.

Any use of the above discretions would, where relevant, be explained in the Annual Directors' Remuneration Report and may, as appropriate, be the subject of consultation with the Company's major shareholders.

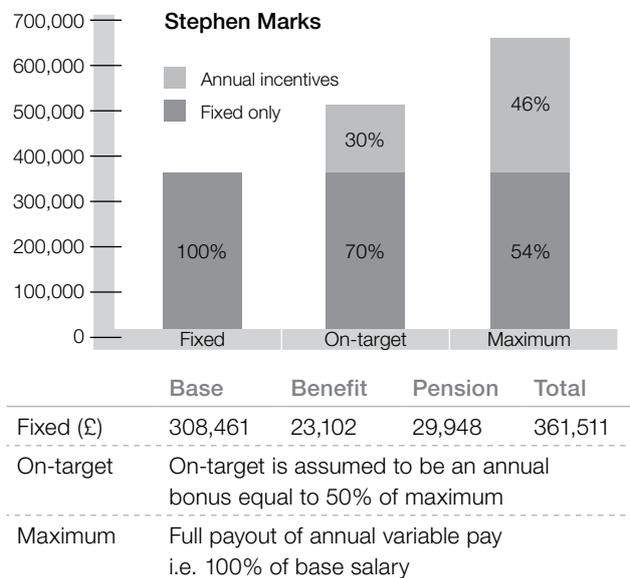

The performance metrics that are used for our annual bonus and LTIP are to reflect the Group's key performance indicators, notably 'Profit before Tax'.

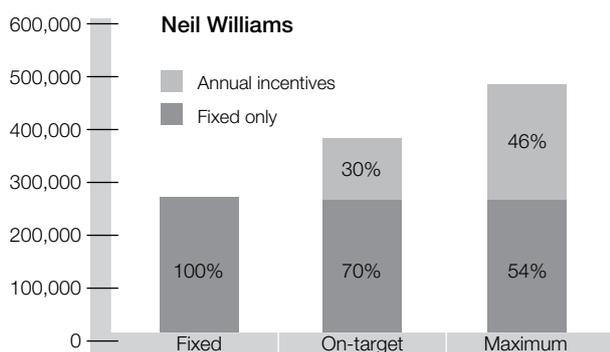

The Executive remuneration policy is broadly in line with other French Connection employees, with the main difference that there is no share scheme below senior Executive level and some variation of benefits offered.

Any loss of office payment will be approved by the Group Board and Remuneration Committee. Any payment will be made at discretion and on a case-by-case basis. Any payments made beyond contractual and statutory obligations would be exceptional in nature either due to additional obligations taken on by the departing Director or due to specific circumstance and always benchmarked against market practice.

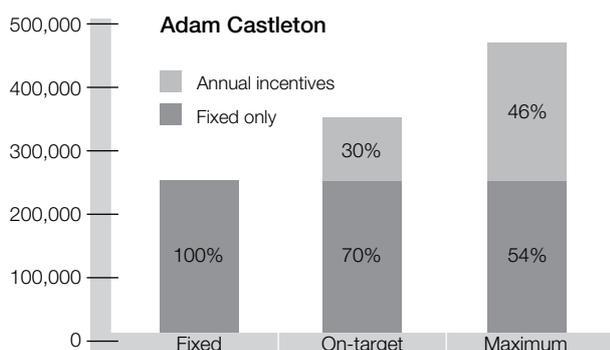

## Illustration of application of policy

The bar charts below represents the variations in remuneration at different levels of performance for FY15 for the Executive Directors. Long-term incentive plans have been excluded from the illustrations below because options are normally granted at market value on the date of grant and therefore have no immediate intrinsic value.

	Base	Benefit	Pension	Total

### Executive Director's terms of employment

Neil Williams' service contract is dated 17 April 1996, has an indefinite term, and includes provision for a notice period of twelve months by either party.

Adam Castleton's service contract is dated 26 April 2013, has an indefinite term, and includes provision for a notice period of six months by either party.

The service agreements can be inspected at the Group registered office.

Stephen Marks has no service contract.

### Non-Executive Directors

Non-Executive Directors have specific terms of engagement and the Board determines their remuneration.

Dean Murray's terms of engagement are dated 7 March 2008, have an indefinite term and allow for a notice period of one month.

Claire Kent's terms of engagement are dated 3 October 2008, have an indefinite term and allow for a notice period of one month.

The non-Executive Directors each receive total annual fees of £30,000.

No detailed disclosures have been provided for non-Executive Directors other than for that relating to their fees, as this is the only form of remuneration the non-Executive Directors receive.

### Section 2: Application of the remuneration policy for 2015

The Executive Directors' salaries will be reviewed on 1 April 2015 and will be increased as follows:

Stephen Marks	+2%
Neil Williams	+2%
Adam Castleton	+2%

The annual bonus for the 2016 financial year will operate on the same basis as for the 2015 financial year and will be consistent with the policy detailed in the Remuneration policy section of this report in terms of the maximum bonus opportunity. The measures have been selected to reflect goals that support the key strategic objectives of the Company.

The Remuneration Committee will exercise their discretion to grant share options according to the Remuneration Policy during the Financial Year 2016 dependent upon the financial position of the Group and the personal contribution of each Executive Director. Currently no share grant is contemplated for the forthcoming year.

# STATEMENT OF DIRECTORS' RESPONSIBILITIES

## In respect of the Annual Report and the Financial Statements

The Directors are responsible for preparing the Annual Report and the Group and parent Company financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare Group and parent Company financial statements for each financial year. Under that law they are required to prepare the Group financial statements in accordance with IFRSs as adopted by the EU and applicable law and have elected to prepare the parent Company financial statements in accordance with UK Accounting Standards.

Under Company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent Company and of their profit or loss for that period. In preparing each of the Group and parent Company financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- for the Group financial statements, state whether they have been prepared in accordance with IFRSs as adopted by the EU;
- for the parent Company financial statements, state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the parent Company financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Group and the parent Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent Company's transactions and disclose with reasonable accuracy at any time the financial position of the parent Company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Under applicable law and regulations, the Directors are also responsible for preparing a Strategic Report, a Directors' Report, Directors' Remuneration Report and Corporate Governance Statement that complies with that law and those regulations. These Reports were all approved by the Board of Directors.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

We confirm that to the best of our knowledge:

- the financial statements, prepared in accordance with the applicable set of accounting standards, give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company and the undertakings included in the consolidation as a whole; and
- the Strategic report, including content contained by reference, includes a fair review of the development and performance of the business and the position of the Company and the undertakings included in the consolidation taken as a whole, together with a description of the principal risks and uncertainties that they face.

The Board confirms that the Annual Report and Accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for shareholders to assess the performance, strategy and business model of the Company.

# INDEPENDENT AUDITOR'S REPORT

To the members of French Connection Group plc

## Opinions and conclusions arising from our audit

### 1 Our opinion on the financial statements is unmodified

We have audited the financial statements of French Connection Group PLC for the year ended 31 January 2015 set out on pages 28 to 56. In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent Company's affairs as at 31 January 2015 and of the Group's loss for the year then ended;
- the Group financial statements have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union;
- the parent Company financial statements have been properly prepared in accordance with UK Accounting Standards; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006; and, as regards the Group financial statements, Article 4 of the IAS Regulation.

### 2 Our assessment of risks of material misstatement

In arriving at our audit opinion above on the financial statements the risk of material misstatement that had the greatest effect on our audit was as follows:

#### Carrying value of inventory (£35.5m)

Refer to page 17 (Audit Committee Report), page 34 (accounting policy) and page 49 (financial disclosures).

- *The risk* – Inventory is carried in the financial statements at the lower of cost and net realisable value. The net realisable value of inventory in the fashion industry is difficult to estimate, in particular due to uncertain consumer demand. As a result there is a risk that the cost of inventory exceeds its net realisable value due to the significant degree of judgement involved in determining the inventory provision.
- *Our response* – In this area of our audit procedures included:
  - We tested the Group's controls over inventory by attending inventory counts at both warehouse and retail sites and testing controls over the calculation of inventory loss allowances, inventory provisions and standard costs.
  - We challenged the adequacy of the Group's provisions against inventory by corroborating on a sample basis that items on the stock ageing listing by season were classified in the relevant ageing bracket and assessing the reasonableness of the provision percentages applied to each season. We challenged the Directors' assumptions when making judgements regarding the net realisable value of inventory, in particular on the extent to which old inventory can be sold through various channels, taking into account our knowledge of the industry and of current performance of the Group. We also considered the historical accuracy of provisioning as a tool for evaluating the adequacy of the control environment in setting the current provisions.
  - We considered the adequacy of the Group's disclosures about the degree of estimation involved in arriving at the provision.

### 3 Our application of materiality and an overview of the scope of our audit

The materiality for the Group financial statements as a whole was set at £2.775m. This has been determined with reference to a benchmark of Group revenue (of which it represents 1.6%), which we consider to be one of the principal considerations for members of the Company in assessing the financial performance of the Group, and is a less volatile measure than profit or loss.

We agreed with the audit committee to report to it all corrected and uncorrected misstatements we identified through our audit with a value in excess of £0.135m, in addition to other audit misstatements below that threshold that we believe warranted reporting on qualitative grounds.

Of the Group's fifteen reporting components we subjected seven to audit for Group reporting purposes and one to specified risk focused audit procedures. The latter was not individually financially significant enough to require an audit for group reporting purposes, but did present specific individual risks that needed to be addressed.

The components within the scope of our work accounted for the following percentages of the Group's results:

	Number of components	Group revenue	Group profit and losses before tax	Group total assets
Audits for group reporting purposes	7	70%	79%	76%
Specified risk-focused audit procedures	1	19%	8%	15%
<b>Total</b>	<b>8</b>	<b>89%</b>	<b>87%</b>	<b>91%</b>

For the remaining components, we performed analysis at an aggregated Group level to re-examine our assessment that there were no significant risks of material misstatement within these.

The Group audit team instructed the component auditor in the USA as to the significant areas to be covered, including the relevant risks detailed above and the information to be reported back. The Group audit team approved the component materiality which was set at £1.2m, having regard to the size and risk profile of the USA component. The work on the USA component was performed by the component auditor and the remainder of the components by the Group audit team.

The Group audit team held telephone meetings with the component auditor in the USA. At these meetings, the findings reported to the Group audit team were discussed in more detail, and any further work required by the Group audit team was then performed by the component auditor.

#### **4 Our opinion on other matters prescribed by the Companies Act 2006 is unmodified**

In our opinion:

- the part of the Directors' Remuneration Report to be audited has been properly prepared in accordance with the Companies Act 2006;
- the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the information given in the Corporate Governance Statement set out on pages 14 to 15 with respect to internal control and risk management systems in relation to financial reporting processes and about share capital structures is consistent with the financial statements.

#### **5 We have nothing to report in respect of the matters on which we are required to report by exception**

Under ISAs (UK and Ireland) we are required to report to you if, based on the knowledge we acquired during our audit, we have identified other information in the annual report that contains a material inconsistency with either that knowledge or the financial statements, a material misstatement of fact, or that is otherwise misleading.

In particular, we are required to report to you if:

- we have identified material inconsistencies between the knowledge we acquired during our audit and the Directors' statement that they consider that the annual report and financial statements taken as a whole is fair, balanced and understandable and provides the information necessary for shareholders to assess the Group's performance, business model and strategy; or
- the Audit Committee Report does not appropriately address matters communicated by us to the Audit Committee.

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent Company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent Company financial statements and the part of the Directors' Remuneration Report to be audited are not in agreement with the accounting records and returns; or
- certain disclosures of Directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- a Corporate Governance Statement has not been prepared by the Company.

Under the Listing Rules we are required to review:

- the Directors' statement, set out on page 13, in relation to going concern; and
- the part of the Corporate Governance Statement on pages 14 to 15 relating to the Company's compliance with the ten provisions of the 2012 UK Corporate Governance Code specified for our review.

We have nothing to report in respect of the above responsibilities.

#### **Scope of report and responsibilities**

As explained more fully in the Directors' Responsibilities Statement set out on page 25, the Directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at [www.frc.org.uk/auditscopeukprivate](http://www.frc.org.uk/auditscopeukprivate). This report is made solely to the Company's members as a body and is subject to important explanations and disclaimers regarding our responsibilities, published on our website at [www.kpmg.com/uk/auditscopeukco2014a](http://www.kpmg.com/uk/auditscopeukco2014a), which are incorporated into this report as if set out in full and should be read to provide an understanding of the purpose of this report, the work we have undertaken and the basis of our opinions.

# NOTES TO THE GROUP ACCOUNTS

## 1 Accounting policies

### a) Basis of preparation

French Connection Group PLC (the "Company") is a Company domiciled in the United Kingdom, whose shares are publicly traded on the London Stock Exchange. These financial statements are presented in millions of pounds sterling rounded to the nearest one decimal place.

The consolidated financial statements have been prepared and approved by the Directors in accordance with International Financial Reporting Standards as adopted by the European Union ("adopted IFRS"). The Company has elected to prepare its parent Company financial statements in accordance with UK Generally Accepted Accounting Practice; these are presented on pages 51 to 56.

The consolidated financial statements have been prepared under the historical cost accounting rules, except for derivative financial instruments measured at fair value.

The Group's business activities, together with the factors likely to affect its future development, performance and position are set out in the Financial Review. The financial position of the Group, its cash flows, liquidity position and borrowing facilities are described in the Financial Review. In addition Note 26 to the financial statements includes the Group's objectives, policies and processes for managing its capital, its financial risk management objectives, details of its financial instruments and hedging activities and its exposures to credit risk and liquidity risk.

The Group has considerable cash resources and as a consequence, the Directors believe that the Group is well placed to manage its business risks successfully.

The Group ended the year with £23.2m of net cash and no borrowings. Over the cycle of the year the Group had minimum net cash of £7.6m. Based on this and the forecast performance for the Group over the next 18 months, the Directors have a reasonable expectation that the Group has adequate resources to continue in operational existence for the foreseeable future. For this reason, the Board continues to adopt the going concern basis in preparing the accounts.

The preparation of the financial statements in conformity with adopted IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these assumptions. The estimates and assumptions are based on historical experience and are reviewed on an ongoing basis and are disclosed in Note 29. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

The accounting policies set out below have been applied consistently to all periods in the consolidated financial statements.

There is no significant financial impact on the Group financial statements of the following new standards, amendments and interpretations that are in issue and mandatory for the financial year ending 31 January 2015:

- IFRS 10, 'Consolidated financial statements', IFRS 11, 'Joint arrangements', IFRS 12, 'Disclosure of interests in other entities', Amendments to IAS 27, 'Separate financial statements', Amendments to IAS 28, 'Investments in associates and joint ventures', Amendments to IAS 32, 'Financial instruments: Presentation', Amendments to IAS 36, 'Impairment of assets', Amendments to IAS 39, 'Financial instruments: Recognition and measurement'.

The Group does not consider that there are any standards, amendments or interpretations issued by the IASB, but not yet applicable, that will have a significant impact on the financial statements.

### b) Basis of consolidation

The consolidated financial statements of the Group comprise the accounts of the Company and all its subsidiary undertakings, the accounts of which are all made up to 31 January each year end. The results of companies acquired or disposed of in the year are dealt with from or up to the date control commences or ceases. The net assets of companies acquired are incorporated in the consolidated accounts at their fair values to the Group at the date of acquisition. Intra-group balances and any unrealised gains or losses or income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

Joint ventures are those entities over whose activities the Group has joint control, whereby the Group has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities. Joint ventures are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses of joint ventures, after adjustments to align the accounting policies with those of the Group, from the date that joint control commences until the date that joint control ceases. When the Group's share of losses exceeds its interest in a joint venture, the carrying amount of that interest (including any long-term investments) is reduced to £Nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the investee. Unrealised gains arising from transactions with joint ventures are eliminated against the investment to the extent of the Group's interest in the entity.

## **1 Accounting policies continued**

### **c) Goodwill**

All business combinations are accounted for by applying the purchase method. Goodwill arising on business combinations represents the difference between the cost of the acquisition and the fair value of the identifiable assets, liabilities and contingent liabilities acquired. In respect of acquisitions prior to the IFRS transition date, 1 February 2004, goodwill is included on the basis of its deemed cost based on the amount recognised under UK GAAP.

Goodwill is stated at cost less any accumulated impairment losses as discussed in Note j) below. Goodwill is tested annually for impairment. Negative goodwill arising on an acquisition is recognised directly in the income statement.

The impairment calculations use cash flow projections based on actual operating results extrapolated forward for five years. An appropriate pre-tax discount rate has been used in discounting the projected cash flows based on the weighted average cost of capital applicable to the cash generating units concerned. For the purpose of impairment testing, goodwill is allocated to the lowest level of cash generating unit within the Group at which the goodwill is monitored for internal management purposes. Where goodwill forms part of a cash generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed of in this circumstance is measured on the basis of the relative values of the operation disposed of and the portion of the cash generating unit retained.

### **d) Foreign currency**

Transactions effected by companies in foreign currencies are translated into their functional currency at the foreign exchange rate ruling at the date of transaction. Monetary assets and liabilities of companies denominated in currencies other than the functional currency of the Company are translated at the foreign exchange rate ruling at the balance sheet date. Foreign exchange differences arising on translation are recognised in the income statement. Non-monetary assets and liabilities denominated in foreign currencies that are measured in terms of historical cost are translated using the exchange rate at the date of transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated at the foreign exchange rates ruling at the dates the fair value was determined.

Long term monetary assets and liabilities receivable from or payable to a foreign operation, the settlement of which is not planned or expected to occur in the foreseeable future, are considered to represent part of the Group's net investment in a foreign operation. Therefore, exchange gains and losses arising from these amounts are included in equity in the foreign currency translation reserve.

On consolidation, the assets and liabilities of foreign operations which have a functional currency other than Sterling are translated into Sterling at foreign exchange rates ruling at the balance sheet date. The income and expenses of these subsidiary undertakings are translated into Sterling at the average rates applicable to the period. All resulting exchange differences are taken to reserves. Any exchange differences that have arisen since 1 February 2004 are presented as a separate component of equity within a translation reserve. Such exchange differences taken to reserves as from the date of transition to IFRS are recognised in the income statement upon disposal of the subsidiary.

### **e) Derivative financial instruments**

Derivative financial instruments in the form of forward foreign exchange contracts are used to manage the risk associated with purchases denominated in foreign currencies as described in the section entitled Our Business.

Derivative financial instruments are initially measured at fair value. Any changes in the fair value of the forward contracts during the period in which the hedge is in effect are reflected as a component of equity within the hedging reserve to the extent that the hedge is effective. The ineffective part of the hedge is recognised in the income statement immediately.

### **f) Non-derivative financial instruments**

Non-derivative financial instruments comprise investments in equity, trade and other receivables, cash and cash equivalents, loans and borrowings and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value including any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured at amortised cost less any impairment losses.

A financial instrument is recognised if the Group becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Group's contractual rights to the cash flows from the financial assets expire or if the Group transfers the financial asset. Purchases and sales of financial assets are accounted for at trade date, i.e., the date that the Group commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Group's obligations specified in the contract expire or are discharged or cancelled.

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

### g) Property, plant and equipment

Property, plant and equipment is stated at cost (which from 1 February 2009 includes capitalised borrowing costs where appropriate) less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset.

Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of the assets. Residual values are reviewed at each reporting date. The estimated useful lives are as follows:

Leasehold improvements : period of the lease  
Plant, equipment, fixtures and fittings : 3 to 10 years

### h) Leased assets

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership are classified as finance leases. Finance lease assets are stated at an amount equal to the lower of its fair value and the present value of the minimum lease payments at inception of the lease, less accumulated depreciation and impairment losses. Leased assets are depreciated over the shorter of the lease term and their estimated useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Operating leases are leases where substantially all of the risks and rewards of ownership have not been transferred.

### i) Inventories

Inventories and work in progress are stated at the lower of cost and net realisable value. Cost includes the purchase price of manufactured products, materials, direct labour, transport costs and a proportion of attributable design and production overheads calculated on a first in, first out basis. Net realisable value is the estimated selling price in the ordinary course of business. Provision is made for obsolete, slow moving or defective items where appropriate.

### j) Impairment

The carrying amount of the Group's assets, other than inventories and deferred tax assets, are reviewed each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised in the income statement whenever the carrying amount of an asset exceeds its recoverable amount. For tangible fixed assets, the recoverable amount is determined with reference to the cash generating unit to which the asset belongs. The impairment calculations use cash flow projections based on actual operating results extrapolated forward for five years. An appropriate pre-tax discount rate has been used in discounting the projected cash flows based on the weighted average cost of capital applicable to the individual assets concerned. Further details are provided in Note 11.

Impairment policy relating to goodwill is referred to in Note 1c).

### k) Revenue

Revenue is measured at the fair value of the consideration received or receivable for goods sold to external customers, less returns and value added tax. The revenue arises from the sale of fashion clothing and accessories. Revenue from the sale of goods is recognised in the statement of income when the significant risks and rewards of ownership have been transferred. For retail sales, this occurs at the time the sale is recorded at the store. For wholesale and ecommerce sales, this normally occurs at the time the goods are shipped from the warehouse.

### l) Other operating income

Licensing revenue is included within other operating income. Licence income receivable from licensees are accrued as earned on the basis of the terms of the relevant licence agreement, which is typically on the basis of a variable amount based on turnover.

### m) Lease payments

Operating lease rentals are charged to the income statement on a straight-line basis over the term of the lease. Lease incentives received are recognised in the income statement on a straight-line basis over the term of the lease.

Rentals receivable under operating leases are included in the income statement on a straight-line basis.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

### n) Income tax

Income tax expense comprises current and deferred tax. Income tax expense is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted, or substantively enacted at the balance sheet date, plus any adjustment to tax payable in respect of previous years.

Deferred tax is recognised using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised

## **1 Accounting policies continued**

### **n) Income tax continued**

for the following temporary differences: the initial recognition of goodwill, the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit and differences relating to investments in subsidiaries and jointly controlled entities to the extent that they will probably not reverse in the foreseeable future. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

### **o) Pensions**

The Group only has defined contribution pension schemes. Pension costs charged to the income statement represent the amount of contributions payable to defined contribution and personal pension schemes in respect of the period.

### **p) Share-based payment**

The Group operates share option incentive schemes for Directors and key employees. The fair value of options granted is recognised as an employee expense in the income statement with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options is measured using the "Black-Scholes" option valuation model, taking into account the terms and conditions upon which the options were granted. The amount recognised in the income statement is adjusted at each balance sheet date to reflect the number of share options that are expected to vest revised for expected leavers and estimated achievement of non-market based vesting conditions. The Group has adopted the exemption to apply IFRS 2 only to equity instruments granted after 7 November 2002.

### **q) Segment reporting**

An operating segment is a distinguishable component of the Group that is engaged in business activities from which it may earn revenues and incur expenses and whose operating results are reviewed regularly by the Chief Operating Decision Maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Reportable segments are operating segments that either meet the thresholds and conditions set out in IFRS 8 or are considered by the Board to be appropriately designated as reportable segments. Segment results represent the underlying operating profits of each division and exclude store disposal and closure costs, tax and financing items. Overheads represent the direct costs of the divisional operations, common overheads shared between the divisions within geographic locations, in particular, the costs of local management, advertising, finance and accounting and Group management overheads including the costs of Group management, legal, insurance and IT costs.

### **r) Capital management**

Details of capital risk management are set out in Note 26 to the Group accounts.

### **s) Financial risk management**

Details of financial risk management are set out in Note 26 to the Group accounts.

### **t) Guarantees**

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of fellow subsidiaries or of third parties, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

### **u) Provisions**

A provision is recognised in the balance sheet when the Group has a present legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are recognised at an amount equal to the best estimate of the expenditure required to settle the Group's liability. Obligations arising from restructuring plans are recognised when detailed formal plans have been established and when there is a valid expectation that such a plan will be carried out.

## **2 Operating segments**

### **a) Segment reporting**

The Group's operating segments have been determined based on the key monthly information reviewed by the Board of Directors (deemed to be the Chief Operating Decision Maker). The key metric reviewed cover the Retail and Wholesale sectors in totality, with the performance by key geographies also reviewed.

In addition to the information provided below, detailed commentary on the results of Retail and Wholesale, together with an analysis of the geographical performance, can be found in the Financial Review.

## 10 Losses per share

Basic and diluted losses per share are calculated on 96,119,892 (2014: 95,899,754) shares being the weighted average number of ordinary shares during the year.

Basic and diluted losses per share of (1.6) pence per share (2014: losses of (6.4) pence) is based on losses of £(1.5)m (2014: losses of £(6.1)m) attributable to equity shareholders.

The reconciliation from basic and diluted losses per share to adjusted earnings per share is as follows:

	2015 £m	2015 pence per share	2014 £m	2014 pence per share
Loss attributable to equity shareholders	(1.5)	(1.6)p	(6.1)	(6.4)p

<b>Adjusted loss</b>	<b>(0.7)</b>	<b>(0.7)p</b>	<b>(4.4)</b>	<b>(4.6)p</b>

The adjusted losses per share relates to the underlying operations and in the opinion of the Directors, gives a better measure of the Group's underlying performance than the basic losses per share.

Given the similar nature of the activities of each cash generating unit, a consistent methodology is applied across the Group in assessing cash generating unit recoverable amounts. The recoverable amount is the higher of the value in use and the fair value less the costs to sell. The value in use is the present value of the cash flows expected to be generated by the cash generating unit over a projection period together with a terminal value. Cash flows are projected based on actual operating results and the Directors' five year forward forecasts which are based on Directors' knowledge, historical experience and economic growth forecasts for the fashion industry, including maximum sales growth forecasts of 2% per annum. A pre-tax discount rate of 15% (2014: 15%) has been applied to the value in use calculations reflecting market assessments of the time value of money at the balance sheet date. A terminal growth rate of 2% (2014: 2%) has been used based on industry growth rates. As discussed in Our Business, like all retailers, the Group is susceptible to volatility in the propensity of consumers to spend, which is affected by macro-economic issues. Further, both the Group's retail and wholesale businesses have largely inflexible cost bases giving rise to substantial operational gearing. Accordingly the key sensitivity with regard to future cash flows and value in use relates to the assumed sales growth. As noted above this has been set at a maximum of 2% per annum.

At 31 January 2015 the Group had contracted capital commitments not provided for in the accounts of £0.3m (2014: £0.2m).

At 31 January 2015 the Group had commitments on foreign exchange contracts amounting to £3.5m (2014: £4.5m). In addition, the Group had commitments in respect of letters of credit of £1.0m (2014: £1.4m).

## 25 Contingent liabilities

The Group has a number of sublet and assigned properties. In the event that the tenants of these properties default, the Group may be liable. At the year end, the total annual commitment amounted to £Nil (2014: £Nil).

## 26 Financial instruments

Details of financial risk management, treasury policies and use of financial instruments are set out in the section entitled 'Principal risks and uncertainties' within Our Business.

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. Derivative financial instruments are used to hedge exposure to fluctuations in foreign exchange rates.

### Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation. The Group monitors its cash position on a regular basis through the use of regularly updated cash flow forecasts, and believes that it has sufficient and appropriate net funds and facilities available.

### Interest rate risk

The Group does not use interest rate financial instruments. The Group regularly monitors and reacts accordingly to any exposure to fluctuations in interest rates and the impact on its monetary assets and liabilities.

### Foreign currency risk

The Group is exposed to foreign currency risks on sales, purchases and cash holdings that are denominated in a currency other than Sterling. The currency giving rise to this risk is primarily the Hong Kong Dollar. The Group's policy is to reduce the risk associated with purchases denominated in foreign currencies, by using forward fixed rate currency purchase contracts up to a maximum of one year forward, taking into account any forecast foreign currency cash flows.

In respect of other monetary assets and liabilities held in currencies other than the Hong Kong Dollar, the Group ensures that the net exposure is kept to an acceptable level, by buying or selling foreign currencies at spot rates where necessary to address short-term imbalances.

The Group's policy is not to hedge the translational exposure that arises on consolidation of the statement of income at overseas subsidiaries.

### Credit risk

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. The Group's main credit risk is primarily attributable to its trade receivables. Credit evaluations are performed on all customers requiring credit over a certain amount. The Group does not require collateral in respect of financial assets. The amounts recognised in the balance sheet are net of appropriate allowances for doubtful receivables, estimated by the Group's management based on prior experience and their assessment of the current economic environment. At the balance sheet date, there were no significant concentrations of credit risk by customer or by geography. Quantitative analysis of credit risk to receivables is presented below.

Credit risk associated with cash balances and derivative financial instruments is managed by transacting with an existing relationship bank with strong investment grade rating. The maximum exposure to credit risk is represented by the carrying amount of each financial asset, including derivative financial instruments, in the balance sheet.

### Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying amount	
	2015 £m	2014 £m
Trade and other receivables	14.4	14.8
Cash and cash equivalents	23.2	28.2
	<b>37.6</b>	43.0

The maximum exposure to credit risk for trade and other receivables at the reporting date by geographic region was:

	Carrying amount	
	2015 £m	2014 £m
UK/Europe	8.4	8.8
North America	3.1	2.4
Hong Kong	2.9	3.6
	<b>14.4</b>	14.8

The maximum exposure to credit risk for trade receivables at the reporting date by type of customer was:

	2015 £m	2014 £m
Wholesale customers	13.0	13.7

The ageing of gross trade receivables at the reporting date was:

	Gross 2015 £m	Impairment 2015 £m	Gross 2014 £m	Impairment 2014 £m
Current	9.9	–	10.1	–

### Sensitivity analysis

A 10% strengthening of Sterling against the following currencies at 31 January would have increased/(decreased) equity and profit and loss by the amounts shown below. This analysis assumes that all other variables, in particular, interest rates, remain constant. This analysis is performed on the same basis for the prior year.

	Equity 2015 £m	Profit and loss 2015 £m	Equity 2014 £m	Profit and loss 2014 £m
US Dollar	-	<b>0.5</b>	-	(0.1)

### Borrowing facilities

Working capital and letter of credit facilities of £4.5m were available to the Group at 31 January 2015 (31 January 2014: £4.2m). The facilities are subject to an annual review and were most recently renewed in July 2013.

### Fair values

The fair value of the Group's financial instruments at 31 January 2015 were as follows:

	31 January 2015		31 January 2014	
	Carrying amount £m	Estimated fair value £m	Carrying amount £m	Estimated fair value £m
Primary financial instruments used to finance the Group's operations:				
Cash and cash equivalents	<b>23.2</b>	<b>23.2</b>	28.2	28.2
Trade receivables	<b>13.0</b>	<b>13.0</b>	13.7	13.7
Trade payables	<b>(17.5)</b>	<b>(17.5)</b>	(21.7)	(21.7)
Derivative financial instruments	<b>0.3</b>	<b>0.3</b>	(0.2)	(0.2)

The fair value of forward exchange contracts outstanding as at 31 January 2015 is an asset of £0.3m (2014: liability of £0.2m). £0.5m has been credited to the hedging reserve (2014: debited £0.3m).

These contracts mature in the next 12 months, therefore the cash flows and resulting effect on profit and loss are expected to occur within the next 12 months.

The fair value of derivative financial instruments is determined using discounted cash flow techniques based on readily available market data and represent a Level 2 measurement in the fair value hierarchy under IFRS 7. Level 2 is defined as inputs other than quoted prices in active markets that are observable for the asset or liability.

### Capital management

The capital structure of the Group consists of net funds and equity attributable to the equity holders of the parent Company, comprising issued share capital, reserves and retained earnings. The Group manages its capital with the objective that all entities within the Group continue as going concerns. The Group is not subject to any externally imposed capital management.

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. To achieve this the Board of Directors monitors the balance sheet, the working capital, the cash flows and the level of dividends paid to shareholders.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

At present employees, including the Chairman, hold 41.8% (2014: 41.8%) of ordinary shares. Share options have been issued amounting to 2.7% (2014: 3.0%) of the issued share capital.

The Company will request permission from shareholders if deemed necessary to purchase its own shares.

There were no changes in the Group's approach to capital management during the year.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

## 27 Directors' interests and related party transactions

The Group made sales of £1.7m (2014: £1.5m) to FCUK IT Company and £1.0m (2014: £0.8m) to FCIT China Limited during the year, both of which are joint ventures. The closing liabilities due from the respective joint ventures are £0.7m (2014: £0.3m) and £0.5m (2014: £0.3m).

There are no related party transactions between French Connection Group PLC and the non-controlling interest subsidiary undertakings.

French Connection Group was invoiced directly for property costs relating to 202 Westbourne Grove, London and recharged these costs to SAM Corporation Limited. Stephen Marks, Chairman and Chief Executive of French Connection Group PLC is a Director of French Connection Group PLC and is the sole shareholder of SAM Corporation Limited. The total costs invoiced and recharged during the year was £476,877 and was conducted at arm's length.

At 31 January 2015, Stephen Marks, Chairman and Chief Executive had an interest in 40,094,190 ordinary shares (2014: 40,094,190) of which 2,281,500 shares (2014: 2,281,500) were held by family members or in family trusts, representing in aggregate 41.7% (2014: 41.8%) of the total issued ordinary share capital of the Company. At 31 January 2015, Adam Castleton, Group Finance Director, had an interest in 81,600 ordinary shares (2014: 33,000) representing 0.08% (2014: 0.03%) of total issued ordinary share capital of the Company.

Details of the Directors' remuneration, being the key management personnel, are disclosed in the Directors' Remuneration Report.

## 28 Pension costs

The Group operates a Group defined contribution scheme and contributes towards a number of personal pension plans. The assets of these schemes are held separately from those of the Group in independently administered funds.

The pension cost charge for the year was £0.5m (2014: £0.5m). At 31 January 2015 and 31 January 2014 there were no outstanding amounts payable to the schemes.

## 29 Accounting estimates and judgements

The Directors have made significant accounting estimates and judgements in applying the Group's accounting policies in the following area:

*Inventory valuation* – the Directors have used their knowledge and experience of the fashion industry in determining the level and rates of provisioning required to calculate the appropriate inventory carrying values. Inventory is carried in the financial statements at the lower of cost and net realisable value. Sales in the fashion industry can be extremely volatile and consumer demand changing significantly based on current trends. As a result there is a risk that the cost of inventory exceeds its net realisable value. Provision is made for obsolete, slow moving or defective items where appropriate. Provisions are considered on a seasonal basis taking into consideration the various channels that are available to the Group to sell existing inventory and the estimated prices that can be achieved.

Plant, equipment, fixtures and fittings : 3 to 10 years

### d) Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Full provision has been made for deferred taxation arising from timing differences between the recognition of income and expenditure for taxation and accounting purposes. Deferred tax amounts are not discounted.

### e) Foreign exchange

Monetary assets and liabilities denominated in foreign currencies are translated into Sterling at rates of exchange ruling at the balance sheet date. Transactions in the period are translated into Sterling at the rates of exchange ruling on the date of transaction or at hedged rates. Resulting exchange differences are taken to the profit and loss account. Forward fixed rate currency purchase contracts are used.

### f) Leased assets

Operating lease rentals are charged to the profit and loss account in the period to which they relate. Rentals receivable under operating leases are included in the profit and loss account on an accruals basis. There are no finance leases in the current year.

### g) Pension cost

Pension costs charged to the profit and loss account represent the amount of contributions payable to defined contribution and personal pension schemes in respect of the period.

### h) Share-based payment

The Group operates share option incentive schemes for Directors and key employees. The fair value of options granted is recognised as an employee expense in the income statement with a corresponding increase in equity. The fair value is measured at grant date and spread over the period during which the employees become unconditionally entitled to the options. The fair value of the options is measured using the "Black-Scholes" option valuation model, taking into account the terms and conditions upon which the options were granted. The amount recognised in the income statement is adjusted at each balance sheet date to reflect the number of share options that are expected to vest revised for expected leavers and estimated achievement of non-market based vesting conditions. The Group has adopted the exemption to apply FRS 20 only to equity instruments granted after 7 November 2002. The fair value of the share options granted is not considered to be material in the current or prior years.

## **1 Accounting policies continued**

### **i) Derivative financial instruments**

Derivative financial instruments in the form of forward foreign exchange contracts are used to manage the risk associated with purchases denominated in foreign currencies as described in the section entitled Our Business. Any changes in the fair value of the forward contracts during the period in which the hedge is in effect will be reflected as a component of reserves within a hedging reserve to the extent that the hedge is effective. The ineffective part of the hedge is recognised in the profit and loss account.

Financial Reporting Standard 29 “Financial Instruments: Disclosures” (FRS 29) sets out the requirements for the presentation of, and disclosures relating to, financial instruments and replaces the requirements of FRS 25 “Financial Instruments: Disclosure and Presentation”. The Company is exempt from the requirements of FRS 29 as the financial statements for the Group include disclosures that comply with IFRS 7, the equivalent International Financial Reporting Standard.

### **j) Non-derivative financial instruments**

Non-derivative financial instruments comprise investments in equity trade and other receivables, cash and trade and other payables.

Non-derivative financial instruments are recognised initially at fair value including any directly attributable transaction costs. Subsequent to initial recognition non-derivative financial instruments are measured at amortised cost less any impairment losses.

A financial instrument is recognised if the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Company’s contractual rights to the cash flows from the financial assets expire or if the Company transfers the financial asset. Purchases and sales of financial assets are accounted for at trade date, i.e., the date that the Company commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Company’s obligations specified in the contract expire or are discharged or cancelled.

Cash comprises cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Company’s cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

### **k) Investments**

Investments are stated at cost less provision for impairment.

### **l) Share capital**

When new shares are issued, they are recorded in share capital at their par value. The excess of the issue price over the par value is recorded in the share premium reserve. The cost of own shares purchased to satisfy the exercise of employee share options is charged to total equity and the proceeds of their reissue are credited to total equity.

### **m) Dividends on shares presented within shareholders’ funds**

Dividends unpaid at the balance sheet date are only recognised as a liability at that date to the extent that they are appropriately authorised and are no longer at the discretion of the Company. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.

### **n) Guarantees**

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of fellow subsidiaries or of third parties, the Company considers these to be insurance arrangements and accounts for them as such. In this respect, the Company treats the guarantee contract as a contingent liability until such time as it becomes probable that the Company will be required to make a payment under the guarantee.

## **2 Staff numbers and operating costs**

All Directors and staff are employed by French Connection (London) Limited, a subsidiary undertaking. Details of staff numbers and costs are shown in that Company’s accounts. Directors’ remuneration is disclosed in the Directors’ Remuneration Report.

The audit fee of the Company is disclosed in Note 7 to the Group accounts.

During the year, the Company subscribed for additional share capital of £75.0m in its subsidiary undertaking, French Connection UK Limited, £10.0m in its subsidiary undertaking, French Connection (London) Limited and £1.0m in its subsidiary undertaking, Contracts Limited.

The Directors have conducted an impairment review comprising a comparison of the carrying amount of the investment with its recoverable amount being the higher of net realisable value and value in use. The recoverable amount has been determined as the net realisable value. To the extent that the carrying amount exceeds the recoverable amount, the investment is impaired and has been provided against. The impairment loss has been recognised in the profit and loss account in the year.

Impairments of £68.0m (2014: £1.2m) relating to the Group's investment in subsidiary companies, French Connection UK Limited, French Connection (London) Limited and Contracts Limited have been provided in the current year. In accordance with its accounting policy, the Company states its investments in subsidiaries at cost less provision for impairment. However, the underlying net asset value of its subsidiaries is £50.7m (2014: £54.8m).

The principal subsidiaries of the Company are set out in Note 30 to the Group accounts.

# NOTICE OF MEETING

## THIS DOCUMENT IS IMPORTANT AND REQUIRES YOUR IMMEDIATE ATTENTION

If you are in any doubt as to the action you should take, you are recommended to seek your own personal advice from your stockbroker, accountant or other independent professional adviser authorised under the Financial Services and Markets Act 2000.

If you have sold or otherwise transferred all of your ordinary shares in French Connection Group PLC, you should forward this document and other documents enclosed (except the personalised form of proxy) as soon as possible to the stockbroker, bank or other agent through whom the sale or transfer was effected for transmission to the purchaser or transferee.

**Notice is hereby given** that the Annual General Meeting of the Company will be held at 10.00 am on Thursday 14 May 2015 at the offices of French Connection Group PLC, Centro 1, 39 Camden Street, London NW1 0DX to consider and, if thought fit, pass the following resolutions:

### Ordinary Resolutions

- 1 To receive and adopt the audited accounts and the report of the Directors and of the auditors for the financial year ended 31 January 2015.
- 2 To approve the Directors' Remuneration Report for the financial year ended 31 January 2015.
- 3 To re-elect Stephen Marks as a Director of the Company.
- 4 To re-elect Dean Murray as a Director of the Company.
- 5 To appoint KPMG LLP as auditors to hold office from the conclusion of this meeting until the conclusion of the next Annual General Meeting at which accounts are laid and to authorise the Directors to determine their remuneration.
- 6 To adopt FRS101 in respect of the Company's annual report and accounts for the year ended 31 January 2016.

### 7 THAT:

the Directors be and they are hereby generally and unconditionally authorised pursuant to Section 551, Companies Act 2006 (the "Act") to exercise all powers of the Company to allot shares in the Company and grant rights to subscribe for or to convert any security into shares of the Company (such shares and rights to subscribe for shares or to convert any security into shares of the Company being "relevant securities") up to an aggregate nominal amount of £288,534 (being 30% of the issued share capital) PROVIDED THAT unless previously revoked, varied or extended, this authority shall expire on the date of the next Annual General Meeting of the Company after the passing of this Resolution SAVE THAT the Company may before such expiry make an offer or agreement which would or might require relevant securities to be allotted after such expiry and the Directors may allot relevant securities in pursuance of such an offer or agreement as if the authority conferred hereby had not expired

### Special Resolutions

To consider and, if thought fit, pass resolutions 8 and 9 below as Special Resolutions of the Company:

### 8 THAT:

if resolution 7 is passed, the Directors be and they are hereby empowered pursuant to Section 570(1) of the Act to allot equity securities (as defined in Section 560(1) of the Act) of the Company wholly for cash pursuant to the authority under Section 551 of the Act conferred by resolution 7 above and/or by way of a sale of treasury shares for cash (by virtue of Section 573 of the Act) in each case as if Section 561(1) of the said Act did not apply to any such allotment provided that:

(a) the power conferred by this resolution shall be limited to:

(i) the allotment of equity securities and sale of treasury shares for cash in connection with an offer of, or invitation to apply for, equity securities:

(A) in favour of holders of ordinary shares in the capital of the Company, where the equity securities respectively attributable to the interests of all such holders are proportionate (as nearly as practicable) to the respective number of ordinary shares in the capital of the Company held by them; and

(B) to the holders of any other equity securities as required by the rights of those securities or as the Directors otherwise consider necessary,

but subject to such exclusions or other arrangements as the Directors may deem necessary or expedient to deal with treasury shares, fractional entitlements or legal, regulatory or practical problems arising under the laws or requirements of any overseas territory or by virtue of shares being represented by depository receipts or the requirements of any regulatory body or stock exchange or any other matter whatsoever; and

(ii) the allotment (otherwise than under sub-paragraph (i) above) of equity securities or sale of treasury shares up to an aggregate nominal value equal to £48,089 (representing 5% of the issued share capital for the time being); and

(b) unless previously revoked, varied or extended, this power shall expire on the date of the next Annual General Meeting of the Company after the passing of this Resolution SAVE THAT the Company may before such expiry make an offer or agreement which would or might require equity securities to be allotted (and treasury shares to be sold) after such expiry in pursuance of such an offer or agreement and the Directors may allot relevant securities in pursuance of such an offer or agreement as if the authority conferred hereby had not expired.

9 THAT a general meeting other than an annual general meeting may be called on not less than 14 clear days' notice, provided that this authority shall expire at the end of the next annual general meeting of the Company.

By order of the Board

# NOTICE OF MEETING

## Explanatory notes to the AGM Notice

### Resolution 1 – Approval of the annual report and accounts

The Directors are required by the Companies Act 2006 (the “Act”) to lay before the Company at this Annual General Meeting the accounts of the Company for the financial year ended 31 January 2015, the report of the Directors, the Directors’ Remuneration Report and the report of the Company’s auditor on those accounts.

### Resolution 2 – Directors’ Remuneration Report

Resolution 2 is the ordinary resolution to approve the Directors’ Remuneration Report. The vote of this resolution is advisory and no Director’s remuneration is conditional upon the passing of this resolution. The Directors’ Remuneration Policy was approved by shareholders at the AGM held on 15 May 2014. Accordingly, it had a binding effect on the Company from that date. As no changes have been made to the policy since its approval by shareholders, it is not proposed to submit it to the AGM to be held on 2015.

### Resolutions 3 to 4 – Re-election of Directors

The articles of association of the Company require the nearest number to one third of the Directors to retire at each annual general meeting. Stephen Marks and Dean Murray are subject to rotation and being eligible, offer themselves for re-election.

### Resolution 5 – Appointment of auditors

The Company is required to appoint an auditor at each general meeting at which accounts are laid before the Company, to hold office until the next such meeting. The Audit Committee has recommended and the Board has approved the resolution to appoint KPMG LLP as auditor of the Company.

### Resolution 6 – Adoption of FRS101

The Board considers it is in the best interests of the Company to adopt FRS101 “Reduced Disclosure Framework” in order to achieve consistency with the Group financial statements.

### Resolution 7 – Authority to allot shares

Under section 551 of the Act, Directors require shareholders’ authority for the allotment of shares. Shareholders last granted such general authority to the Directors at the annual general meeting of the Company held in 2014. Such authority will expire at the end of this Annual General Meeting and Resolution 7 seeks to renew it (although the Directors have no current plans to utilise the authority, except in relation to the issue of new shares pursuant to the Company’s share incentive schemes). Accordingly, Resolution 7 would renew this authority until the next annual general meeting by authorising the Directors to allot shares up to an aggregate nominal amount equal to approximately one third of the current issued share capital of the Company.

### Resolution 8 – Disapplication of statutory pre-emption rights

This resolution seeks to disapply the pre-emption rights provisions of section 561 of the Act, which requires Directors wishing to allot shares to offer them in the first instance to existing ordinary shareholders in proportion to their ordinary shareholding. There may be occasions, however, when the Directors will need the flexibility to finance business opportunities by the issue of ordinary shares without a pre-emptive offer to existing ordinary shareholders. Shareholders last granted authority to Directors to dis-apply pre-emptive rights at the annual general meeting held in 2014. Such authority will expire at the end of this Annual General Meeting and Resolution 8 seeks to renew it. Except in relation to the issue of new ordinary shares pursuant to the Company’s share incentive schemes, the Directors have no present intention of issuing any shares pursuant to this disapplication.

### Resolution 9 – Notice of general meetings

Under the Companies Act 2006 all general meetings must be held on 21 days’ notice unless shareholders approve a shorter period, which cannot be less than 14 clear days (AGMs will continue to be held on at least 21 clear days’ notice). The Directors believe it is in the best interests of the shareholders of the Company to enable general meetings to be called on 14 clear days’ notice. It is intended that this flexibility will only be used for non-routine business and, where merited, in the interests of shareholders as a whole. The approval will be effective until the Company’s next annual general meeting, when it is expected that a similar resolution will be proposed.

## General notes to the AGM Notice

1. Holders of ordinary shares, or their duly appointed representatives, are entitled to attend and vote at the AGM. Shareholders are entitled to appoint a proxy to exercise all or any of their rights to attend and speak and vote on their behalf at the meeting. A shareholder can appoint the Chairman of the meeting or anyone else to be his/her proxy at the meeting. A proxy need not be a shareholder. More than one proxy can be appointed in relation to the AGM provided that each proxy is appointed to exercise the rights attached to a different ordinary share or shares held by that shareholder. To appoint more than one proxy, the Proxy Form enclosed should be photocopied and completed for each proxy holder. The proxy holder’s name should be written on the Proxy Form together with the number of shares in relation to which the proxy is authorised to act. The box on the Proxy Form must also be ticked to indicate that the proxy instruction is one of multiple instructions being given. All Proxy Forms must be signed and, to be effective, must be lodged with Capita so as to arrive no later than 10 am on 12 May 2015.
2. The return of a completed Proxy Form, other such instrument or any CREST Proxy Instruction (as described in Note 1) will not prevent a shareholder attending the AGM and voting in person if he/she wishes to do so (although voting in person at the AGM will terminate the proxy appointment).
3. In order for a proxy appointment made by means of CREST to be valid, the appropriate CREST message (a CREST Proxy Instruction) must be properly authenticated in accordance with Euroclear UK & Ireland Limited’s specifications and must contain the information required for such instructions, as described in the CREST Manual. The message must be transmitted so as to be received by Capita (ID RA10) not later than 48 hours before the time fixed for the AGM. For this purpose, the time of receipt will be taken to be the time (as determined by the timestamp applied to the message by the CREST Applications Host) from which Capita is able to retrieve the message by enquiry to CREST. After this time any change of instructions to proxies appointed through CREST should be communicated to the appointee through other means. Euroclear UK & Ireland Limited does not make available special procedures in CREST for any particular messages and normal system timings and limitations will apply in relation to the input of a CREST Proxy Instruction. It is the responsibility of the CREST member concerned to take such action as shall be necessary to ensure that a message is transmitted by means of the CREST system by any particular time. The Company may treat as invalid a CREST Proxy Instruction in the circumstances set out in Regulation 35(5)(a) of the Uncertificated Securities Regulations 2001.
4. Any person to whom this Notice is sent who is a person nominated under Section 146 of the CA 2006 to enjoy information rights (a Nominated Person) may, under an agreement between him/her and the shareholder by whom he/she was nominated, have a right to be appointed (or to have someone else appointed) as a proxy for the AGM. If a Nominated Person has no such proxy appointment right or does not wish to exercise it, he/she may, under any such agreement, have a right to give instructions to the shareholder as to the exercise of voting rights.
5. The statement of the rights of shareholders in relation to the appointment of proxies in Note 1 does not apply to Nominated Persons. The rights described in that note can only be exercised by shareholders of the Company.
6. As at 12 April 2015, being the latest practicable date prior to the publication of this document, the Company’s issued share capital consists of 96,178,134 ordinary shares, carrying one vote each. Therefore the total voting rights in the Company as at 12 April 2015 are 96,178,134.
7. In accordance with Regulation 41 of the Uncertificated Securities Regulations 2001, only those members entered on the Company’s register of members at 6 pm on 12 May 2015 or, if the meeting is adjourned, shareholders entered on the Company’s register of members at 6 pm on the day two days before the date of any adjournment shall be entitled to attend and vote at the AGM.

8. Any member attending the meeting has the right to ask questions. The Company has to answer any questions raised by members at the meeting which relate to the business being dealt with at the meeting unless:
  - to do so would interfere unduly with the preparation for the meeting or involve the disclosure of confidential information;
  - the answer has already been given on a website in the form of an answer to a question, or;
  - it is undesirable in the interests of the Company or the good order of the meeting to answer the question.
9. Copies of the Directors' service contracts and letters of appointment along with a copy of the Company's articles of association are available for inspection at the registered office of the Company during normal business hours on any business day and will be available for inspection at the place where the meeting is being held from 15 minutes prior to and during the meeting.
10. A copy of this notice, and other information required by s311A of the Companies Act 2006, can be found at [www.frenchconnection.com](http://www.frenchconnection.com).
11. In the case of a member which is a company, your proxy form must be executed under its common seal or signed on its behalf by a duly authorised officer of the company or an attorney for the company.
12. Any power of attorney or any other authority under which your proxy form is signed (or a duly certified copy of such power or authority) must be included with your proxy form.
13. In the case of joint holders of shares, the vote of the first named in the register of members who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of other joint holders.
14. It is possible that, pursuant to requests made by members of the Company under section 527 of the Companies Act 2006, the Company may be required to publish on a website a statement setting out any matter relating to: (a) the audit of the Company's accounts (including the auditor's report and the conduct of the audit) that are to be laid before the AGM; or (b) any circumstance connected with an auditor of the Company ceasing to hold office since the previous meeting at which annual accounts and reports were laid in accordance with section 437 of the Companies Act 2006. The Company may not require the members requesting any such website publication to pay its expenses in complying with sections 527 or 528 of the Companies Act 2006. Where the Company is required to place a statement on a website under section 527 of the Companies Act 2006, it must forward the statement to the Company's auditor not later than the time when it makes the statement available on the website. The business which may be dealt with at the AGM includes any statement that the Company has been required under section 527 of the Companies Act 2006 to publish on a website.
15. In accordance with section 338 of the Companies Act 2006, a member or members of the Company may (provided that the criteria set out in section 338(3) of the Companies Act 2006 are met) require the Company to give to members notice of a resolution which may properly be moved and is intended to be moved at the AGM, provided that: (a) the resolution must not be, if passed, ineffective (whether by reason of inconsistency with any enactment or the Company's constitution or otherwise); and (b) the resolution must not be defamatory of any person, frivolous or vexatious. Such a request may be in hard copy form or in electronic form, must be authenticated by the person or persons making it, must identify the resolution of which notice is to be given and must be received by the Company not later than 6 weeks before the AGM, or, if later, the time at which notice is given of the AGM. (In the foregoing sentence, the terms "hard copy form", "electronic form" and "authenticated" bear their respective meanings set out in the Companies Act 2006 in relation to a communication, or a document or information sent or supplied, to a company.)
16. In accordance with section 338A of the Companies Act 2006, a member or members of the Company may (provided that the criteria set out in section 338A(3) of the Companies Act 2006 are met) require the Company to include in the business to be dealt with at the AGM a matter (other than a proposed resolution) which may properly be included in the business of the AGM, provided that the matter is not defamatory of any person, frivolous or vexatious. A request may be in hard copy form or electronic form, must identify the matter to be included in the business, must be accompanied by a statement setting out the grounds for the request, must be authenticated by the person or persons making it and must be received by the Company not later than 6 weeks before the AGM, or, if later, the time at which notice is given of the AGM. (In the foregoing sentence, the terms "hard copy form", "electronic form" and "authenticated" bear the respective meanings set out in the Companies Act 2006 in relation to a communication, or a document or information sent or supplied, to a company.)
